MR. PARSONS:

I was advised by my brother last night that my mother had possibly suffered a stroke, but that they were not sure as to her condition.

I was subsequently advised, early this afternoon, that she is in serious condition and I am, therefore, leaving this afternoon, via plane, for California. I will keep in touch with the Los Angeles office.

Dear Mr. Belmont:

I am indeed pleased to commend you for the outstanding attitude you exhibited in reporting for duty today despite the extremely hazardous travel conditions.

You demonstrated a most exemplary devotion to the work of the FBI in considering your services so essential that, in spite of an announcement that all Federal Government agencies would be closed, you reported for duty. I certainly appreciate your dedicated efforts and I want you to know I have instructed that a copy of this letter be placed in your personnel file.

Sincerely yours,

OUTSTANDING ANNUAL PERFORMANCE RATINGS

There are attached for approval annual ratings for Messrs. DeLoach, Belmont and Evans, covering the period from April 1, 1960, through March 31, 1961, rating their services as Outstanding. I have signed the rating of Mr. DeLoach as the rating official and Mr. Parsons has signed the ratings of Messrs. Belmont and Evans as the rating official.

In the event you approve these ratings, I respectfully request that you sign both the original and copy of each of them as the Reviewing Official and the Director sign both the original and copy of each of them as the Approving Official. Thereafter they must be submitted to Deputy Attorney General Byron R. White in the Department for approval by the Efficiency Awards Committee. Upon approval of these ratings by the Efficiency Awards Committee, they will be returned to the Bureau and Messrs. DeLoach, Belmont and Evans will be furnished copies of their ratings. They will also be entitled to cash incentive awards, under the provisions of the Incentive Awards Plan. You recall that you have authorization under delegation from the Attorney General to approve such awards up to \$500, which is the customary amount that has been approved for Assistant Directors and above. For officials below the level of Assistant Director, who are in grade GS-16 or above, it has been customary to approve awards of \$400. For those below grade GS-16, awards of \$300 have been approved.

Should you agree with the foregoing, these ratings will be forwarded to the Department for approval at such time as the Outstanding ratings on the Special Agents in Charge have been prepared and approved in the Bureau. When these ratings have been approved by the Department, necessary checks will be drawn and letters prepared for your signature.

Dear Belmont:

It is a pleasure to advise you that your services for the period April 1, 1960, to March 31, 1961, have merited an Outstanding performance rating which has been approved by the Efficiency Awards Committee of the Department. You may retain the copy of this rating which is enclosed.

In recognition of your outstanding performance I have approved an incentive award for you in the amount of \$500.00. The check for \$410.00 which is enclosed represents this award less withholding tax. I certainly do not want the occasion to pass without telling you that I am deeply appreciative of the superior and devoted manner in which you have discharged your many heavy responsibilities.

**ALAN H. BELMONT
ASSISTANT DIRECTOR
DOMESTIC INTELLIGENCE DIVISION
ENTERED ON DUTY NOVEMBER 30, 1936**

Mr. Belmont is the Assistant Director in charge of the Domestic Intelligence Division and as such is responsible for the immediate direction of the Bureau's activities in the Internal Security, Espionage and Domestic and Foreign Intelligence fields. In view of the superior manner in which he has discharged his numerous and varied responsibilities he is most assuredly deserving of an Outstanding rating for the performance rating period beginning April 1, 1960, and extending through March 31, 1961.

Mr. Belmont has occupied his present position since September 30, 1951, and is eminently qualified for this position having had extensive experience in the field and at the Seat of Government in various supervisory, administrative and executive positions. He is a foremost authority in the Bureau on Internal Security and Domestic and Foreign Intelligence matters. The responsibilities of the Bureau have continued to increase during the year resulting in the assumption of even greater burdens by the top-level executive staff. Mr. Belmont has had to shoulder a tremendous share of these increased responsibilities as a result of the continuing acuteness of the international situation which has increased the work load and presented problems of considerable magnitude. Mr. Belmont has displayed unusual talents in every area of the responsibilities delegated to him, meeting new challenges with refreshing determination and competence. His judicious handling of his multiple executive duties and his acute awareness of the constantly changing international situation have been of inestimable value to the Bureau and the Nation.

Mr. Belmont has displayed an extraordinary ability to analyze the most complex and important problems and as a result of his positive, imaginative thinking in his approach to these problems he has made major contributions to the success the Bureau has realized in fulfilling its responsibilities in the Domestic Intelligence field.

Mr. Belmont is an aggressive, tireless worker who has the imagination, ability and drive for generating ideas and thereafter developing them into sound programs of utmost benefit to the Bureau and the United States.

Mr. Belmont possesses all of the necessary qualifications desired in a top-level executive. His outstanding performance is attributable to the superior capabilities, the selfless devotion to duty and the unerring judgment and acumen displayed by him in every aspect of his work. His contributions to the efficient functioning of the Bureau cannot be overemphasized. Without the benefit of his keen perception, vast knowledge of the Bureau and its responsibilities and the self-sacrificing loyalty to his career the organization would truly suffer. It is a pleasure to recognize his splendid performance by rating it Outstanding.

This memorandum is to fix responsibility as to why the daily airtels from San Francisco Office were withheld from the Director and there was not a summary of their contents sent to the Director.

These airtels were too lengthy to send to the Director. In view of the importance of this case, we should have kept the Director advised by summary memoranda on a daily basis. The failure to do this, or to see that it was done, rests with several individuals.

The Supervisor, , Internal Security Section, who was processing the trial information from San Francisco, prepared a memorandum 4/20/61 setting forth background information and the fact that the trial had started. This was based on an airtel from San Francisco dated 4/18, received 4/20/61. He next prepared a memorandum, dated 4/27 (dictated 4/26), briefing information in San Francisco airtels received 4/21 to 26/61, pointing out that the prosecution's case was weak and that acquittal was anticipated. I did not send this memorandum to the Director because we had received information that the Bureau's pamphlet was under attack at the trial, and I felt this should be specifically set out.

Supervisor C. D. Brennan, Central Research Section, then prepared a memorandum dated 4/28/61, setting this fact out in detail, with accompanying newspaper clippings.

An additional memorandum was prepared on 5/1/61, by Supervisor , setting forth additional developments at the trial, and he subsequently materially assisted in the preparation of 15-page and 4-page memoranda dated 5/3/61, setting forth the over-all picture of the trial, with a resume of the testimony of all defense witnesses.

There was a delay in getting the necessary information to the Director. Knowing the importance of this case, it was certainly my responsibility to see that a daily summary went to the Director

and that he was kept advised of pertinent developments. []
should have prepared such daily summaries.

Even when it became apparent, as the trial progressed, that the Bureau's pamphlet was subject to comment, we moved too slowly in advising the Director. Besides myself, Inspector J. A. Sizoo, to whom I gave instructions, and Section Chief F. J. Baumgardner, to whom Sizoo gave instructions, are chargeable with delay. Supervisor C. D. Brennan is chargeable with delay in the preparation of the 4/28/61 memorandum.

The fact that we were misled by information originally furnished by San Francisco to the effect that the prosecution had five witnesses, plus a newspaper reporter's tape, which appeared to make a good case for the prosecution, cannot be used as an excuse. Some of these alleged witnesses did not materialize. We were on notice as to this after the first few days of the trial, after the prosecution rested.

RECOMMENDATION:

It is recommended that the following individuals be censured for failure to keep the Director sufficiently advised of developments in this matter: Assistant Director A. H. Belmont; Inspector J. A. Sizoo; Section Chief F. J. Baumgardner; Supervisor []; and Supervisor C. D. Brennan.

Dear Mr. Belmont:

I have reviewed your memorandum relating to responsibility for the inaccurate statement contained in the FBI pamphlet, "Communist Target - Youth," and it is clear that there was a failure in your division to insure full and complete documentation in this instance. As Assistant Director you have over-all responsibility for the satisfactory functioning of your subordinates and the serious dereliction mentioned above reflects unfavorably upon your administration of your division.

I shall expect you to make certain that proper measures are taken without delay to prevent a similar failure in the future and to insure that documents prepared by the Central Research Section are entirely accurate and satisfactorily documented.

ALAN H. BELMONT

In accordance with the Director's instructions, we have analyzed the explanations of the San Francisco Office, dated 5/11/61, in this matter, and have made recommendations placing responsibility both at San Francisco and the seat of government.

When the rioting at San Francisco took place from 5/12 to 5/14/60, it was recognized as a matter of considerable significance from the standpoint of Communist Party activity. San Francisco was instructed on 5/18/60 to submit a detailed analysis as to what took place. San Francisco did submit a comprehensive report, dated 5/31/60, on the riot and the part played in it by the Communist Party, attributing the information to "sources which have furnished reliable information in the past, eye witnesses, and available public sources."

After the report was reviewed at the Bureau, it was decided to make a public statement regarding the communist influence in the riot, to alert the public as to what had happened. The Bureau pamphlet "Communist Target - Youth" was highly effective in showing the communist participation in the HCUA demonstration, and severely curtailed the effectiveness of the communist propaganda running rampant in the weeks subsequent to the riot.

The Central Research Section was requested to write a story of the rioting in a manner which would make the greatest impact on the public. Supervisor Charles D. Brennan prepared the pamphlet. The San Francisco report on which it was largely based was positive in tone, and no qualification was placed on its contents. It was taken at face value and, in the absence of some reason to doubt its accuracy, we relied on it, bearing in mind that San Francisco stated the information was furnished by sources which had furnished reliable information in the past, by eye witnesses, and by available public sources.

The paragraph in our pamphlet relative to leaping the barricade, hitting the police officer, and turning the hoses on, is based on positive statements in the San Francisco report and, in fact, is taken almost verbatim from the report.

Mr. Parsons

It now appears we would have been safer to go back to San Francisco and have them fully document their report, to determine the actual sources of each piece of information before our pamphlet was published. Presumably, San Francisco would have advised us that this particular bit of information came from a police source, and would have put us on notice to qualify the information as coming from the police. I say presumably, because when we requested San Francisco to document the report, in August 1960, the paragraph containing this information was documented to Special Agent Donald Kuno. When we later went back and asked just what Kuno had seen, San Francisco advised that the particular bit of the paragraph in question had been furnished to Special Agent Leo A. Schon, by the San Francisco Police.

On the basis that it is the responsibility of the individual preparing a document for publication to be sure that every statement is fully and completely documented, we are recommending that Special Agent Charles D. Brennan, of the Central Research Section, be censured.

With reference to San Francisco's explanations, we find fault with SAC Auerbach's theory that San Francisco's report of 5/31/60 was submitted for the information of only the Bureau and its normal intelligence associates. Presumably Auerbach is taking the position that information submitted for such purposes need not be as accurate as information submitted for publication. This we cannot agree to. We feel we are entitled to have accurate information submitted by the field, regardless of for what purpose, and there cannot be two standards of reporting.

Auerbach's position is utterly fallacious.
Further, we do not agree with Auerbach's explanation that the documentation of the paragraph in question was correct as originally reported, that is, attributable to SA Kuno, when in fact it later turned out that the information in question was attributable to SA Schon, as received from the police. Inasmuch as these are positions taken by SAC Auerbach himself, and not a subordinate, we recommend censure for Auerbach.

RECOMMENDATIONS:

As indicated above, it is recommended that SAC Auerbach of San Francisco be censured, and Supervisor Brennan, of the Central Research Section at the seat of government, be censured.

Yes.

Re: Robert Joseph Meisenbach

ADDENDUM:

I think SAC Auerbach is wrong in his approach to the whole problem and his excuses are fallacious, and it is noted that he recommends no administrative action. I recommend that in addition to censure he be placed on probation. *yes. H.*

I agree with Mr. Belmont's recommendation that Supervisor Brennan of the Central Research Section be censured. The draft was approved by Mr. W. C. Sullivan, Section Chief, and since the over-all supervision of this document prepared in the Domestic Intelligence Division was handled by Mr. Belmont, I recommend that they also be censured.

ALAN H. BELMONT

Belmont Replaces Parsons as Aide To FBI Chief

Alan H. Belmont, assistant director of the FBI's Domestic Intelligence Division, has been promoted to assistant to the director of the bureau, J. Edgar Hoover.

He replaces Donald J. Parsons, nationally known authority on scientific crime detection, who retires June 1 after 27 years' service to enter private industry.

Mr. Belmont, 54, is a native of New York and received his early education in Cincinnati. He studied three years at San Diego State College and, in 1931, was graduated from Stanford University.

He joined the FBI in November, 1936, and has worked in various divisions throughout the country. He was named assistant director of the Domestic Intelligence Division in 1951.

Mr. Parsons, 52, is a Washington native who joined the FBI in February, 1934 after graduating from George Washington University.

After serving as a laboratory aide for two years, he was made a special agent. He was one of the pioneers who helped develop the FBI crime laboratory.

He became assistant director in charge of the laboratory in 1954, and in 1959 was made assistant director in charge of the FBI's Training and Inspection Division. Later he was promoted to be one of the two assistants to the Director.

In his work as an examiner in the laboratory, Mr. Parsons specialized in firearms identification, microscopic and chemical examinations and various research matters.

BACKGROUND:

Early on Sunday morning, 5-28-61, an explosion occurred at a microwave relay station, Wendover, Nevada. Within ten minutes explosions occurred also at microwave relay station Cedar Mountain, Utah, and underground cable relay station at Knowles, Utah. All these stations which were the property of the American Telegraph and Telephone were destroyed. Damage was estimated at \$1,250,000. Since these relay stations are part of the chain which carries vital defense communications, their deliberate destruction brought the matter within the Bureau's jurisdiction as a possible sabotage violation.

These explosions caused extreme concern on the part of the military and the press on a nationwide basis. The Bureau, both at the Seat of Government and in the field, were besieged with inquiries concerning these acts of sabotage.

A nationwide alert was placed by the Air Defense Command for fear there would be other acts of sabotage which would adversely affect the national security. Numerous states called out their National Guards to protect similar facilities located within their boundaries. The War Room of the Pentagon made anxious inquiries regarding this situation.

We immediately instituted an investigation with the Salt Lake City Division acting as Office of Origin. This investigation quickly spread over most of the domestic offices and there were also leads for our Legal Attaches in foreign countries.

After an exhaustive investigation we were successful in identifying and apprehending the subjects in this investigation.

COMMENDATORY ACTION

SEAT OF GOVERNMENT PERSONNEL:

In view of the excellent work performed by Bureau personnel both in the field and at the Seat of Government there is set out herein recommendations for incentive awards and letters of commendation for the deserving personnel.

Domestic Intelligence Division:

Section Chief Fred J. Baumgardner:

It is recommended that Section Chief Baumgardner be granted an incentive award in the amount of \$200 for the consistent outstanding overall direction he afforded to this investigation from its inception. He was in frequent contact with the field by telephone and on a daily basis consulted with the Seat of Government Supervisor and made helpful suggestions throughout the investigation, especially on the afternoon of 6-17-61 when the subjects were located in Ensenada, Mexico. He worked out with SAC Blaylock the overall plan which resulted in the arrest of the subjects in Mexico. In addition, on the night of 6-17-61 he consulted at length with Departmental attorneys in order to obtain from them the complaint which was subsequently used before the United States Commissioner in Nevada in obtaining warrants for the arrests of the subjects. Also, throughout the night on 6/17-18/61 he coordinated our negotiations with the Mexicans by telephone with our Salt Lake City and San Diego Offices. Mr. Baumgardner made an outstanding contribution to the successful conclusion of this investigation. It is therefore recommended that he be afforded an incentive award in the amount of \$200.

b6

[redacted]
Mr. [redacted] supervised this case at the Seat of Government from its inception. The investigation covered the majority of our offices, including leads abroad. Mr. [redacted] cut through tremendous volumes of paper and kept the field headed in the right direction at all times. He used initiative in deciding what investigative steps would be most productive and sent numerous instructions by teletype to the field. He also furnished the field helpful information obtained from file reviews. His work was instrumental in breaking this case. In view of his outstanding performance it is recommended Mr. [redacted] be afforded an incentive award in the amount of \$200.

Memorandum to Mr. Belmont
RE: TELSAB [REDACTED]
98-45626

Joseph A. Sizoo

As No. 1 Man of the Domestic Intelligence Division, Mr. Sizoo made helpful suggestions of a policy nature throughout the investigation. He answered telephonic questions from the field and contributed materially to the success of the case. He should be commended.

Thomas H. Farrow

Mr. Farrow, a Seat of Government supervisor, has worked closely with Mr. Farr on this case. He has assisted in making dissemination and in numerous other ways since the inception of the case. He has worked a number of nights and weekends and has contributed materially to the over-all success of the investigation. Therefore, it is recommended he be afforded a letter of commendation for his contributions in this matter.

Andrew J. Decker

Mr. Decker is the night supervisor for the Domestic Intelligence Division. During the early morning hours of 6-19-61 Mr. Decker handled several telephone calls from the field in connection with this matter and promptly prepared a memorandum which was available for the Director and Bureau officials at the opening of business on 6-19-61. In addition, during the course of the investigation, Mr. Decker reviewed incoming teletypes during the night and in the event any immediate action was necessary, consulted with the supervisor handling the case and then took appropriate action. Mr. Decker handled his assignment in connection with this matter in an intelligent and vigorous manner. It is recommended, in view of his over-all excellent performance in connection with this case, he be afforded a letter of commendation.

b6

[REDACTED] is the Stenographer who has handled most of the dictation in connection with this case. She also acted as Secretary to Supervisor [REDACTED] to whom this case is assigned, since the beginning of the case. She has handled much of the routine administrative matters incidental to a big case of this type on her own initiative. She has worked long hours without regard for her own convenience. In view of her over-all excellent attitude and the excellent manner in which she has performed, it is recommended she be afforded a letter of commendation.

b6

[REDACTED] is the Clerk assigned to Mr. [REDACTED]. During this entire investigation she has assisted in file reviews

Memorandum to Mr. Belmont

RE: TELSAB [REDACTED]

98-45626

and handled the many clerical functions incidental to a case of this magnitude on her own initiative. She has proved of invaluable assistance to [REDACTED] and her alert and enthusiastic approach to her duties are worthy of special mention. b6

Therefore, it is recommended that she be afforded a letter of commendation in view of her over-all excellent performance.

Laboratory Division (Recommended by Briggs White No. 1 Man of Division)

Special Agents George A. Berley and [REDACTED] of the Laboratory were sent to the scenes of the three explosions. After flying nearly all night, they arrived at Salt Lake City at 7:15 a.m., 5-29-61. They immediately went to the scenes of the three explosions and did an excellent job in supervising the technical phases of the crime scene searches, collection of evidence and preliminary evaluation of the specimens recovered. Evidence from the scenes were brought to the Laboratory by Berley and [REDACTED] and they correlated and supervised the technical aspects of the examinations relating to the explosives phase of the case. They handled dangerous explosives at the scenes and their over-all handling of the technical phases of the case was outstanding and important to the successful outcome.

Special Agent James V. Blaine of the Laboratory handled literally hundreds of document examinations and comparisons all on an extremely expedite basis and made highly significant findings identifying subject Brous with threatening type letters that play an important role in the case. Much of the work was done after regular working hours and on weekends. Special Agent Blaine worked on this case Tuesday (holiday) 5-30, Saturday 6-3, Saturday 6-10, Sunday 6-11 and Saturday 6-17 contributing many hours of his personal time on a VOT basis. Therefore, it is recommended that Special Agents George A. Berley, [REDACTED] and James V. Blaine be afforded letters of commendation for their superior contribution and performance in this case. b6

Identification Division (Recommended by Assistant Director Trotter)

A large amount of evidence was forwarded to the Identification Division for processing for latent fingerprints in this case. Among the many latents developed were two on a cement bag found at the rear of one of the buildings destroyed. These latents were compared with the prints of all named suspects.

Memorandum to Mr. Belmont

RE: TELSAB [REDACTED]

98-45626

On 6-17-61 Latent Fingerprint Examiner [REDACTED] compared the prints of suspect [REDACTED] with all the latents developed in this case. He identified the two latents appearing on the cement bag with the fingerprints of [REDACTED]. This identification definitely placed [REDACTED] at the scene of the crime. The examination which was conducted by [REDACTED] late Saturday afternoon, 6-17-61, was handled in a most commendable manner. The identification was made from fragmentary fingerprint impressions and [REDACTED] exercised unusual skill and ingenuity in making this identification. It is, therefore, recommended that [REDACTED] be commended by letter for his work in this case.

Crime Records Division (Recommended by Assistant Director DeLoach)

Mr. DeLoach advised that Robert E. Wick, No. 1 Man of the Division, and Supervisors Charles E. Moore, Jr., and Harold P. Leinbaugh prepared the press release in connection with this case. These men prepared an excellent release, as a result of which nationwide publicity favorable to the Bureau was received. They approached their task enthusiastically and all three performed in an above-average manner. In view of this, Mr. DeLoach recommended these men be afforded letters of commendation.

FIELD PERSONNEL:

Salt Lake City Division:

SAC Leonard Blaylock:

As soon as this case broke SAC Blaylock of our Salt Lake City Office took personal charge of this investigation. As Office of Origin he organized the investigation in his Division so that the most would be gained from the man power at his disposal. The investigation spread rapidly and SAC Blaylock demonstrated he possessed the necessary scope to cope with an investigation of this magnitude. He saw to it that all leads were handled by teletype or telephone and organized his office administratively so that reports and other communications were submitted to the Bureau promptly. He was on top of the situation at all times and in the very beginning arranged to have Agents flown to the scene of the explosions by helicopter. He maintained this pace throughout the investigation. During the course of the investigation

Memorandum to Mr. Belmont

RE:

he also handled inquiries from the local military people as well as top officials of American Telegraph and Telephone who flew to Salt Lake City from New York City to supervise reinstallation of the damaged relay stations. SAC Blaylock handled this case in an aggressive, enthusiastic manner and performed in an above average fashion. Therefore, it is recommended he be afforded an incentive award of \$250.

San Diego Division:

SAC Frank L. Price:

Upon receiving information from the Los Angeles Office that the subjects had possibly left Wilmington, California, aboard the ship "Monsoon" took personal charge of the investigation to locate the boat and the subjects. He dispatched an Agent to Ensenada, Mexico, to locate the boat and when it was located proceeded there and personally supervised the arrangements to have Mexican officials arrest the subjects and search the boat. An arsenal of arms and ammunition was found aboard the boat and he insisted in the evaluation of the evidence. SAC Price participated in the interviews in Mexico of the subjects and established liaison with Mexican authorities to protect the Bureau's interests. He thereafter took personal command of the arrests of the subjects when they were deported by Mexican authorities and arranged for their arraignment before the United States Commissioner at San Diego, California. SAC Price afforded alert, aggressive and sound leadership in the highly delicate negotiations with Mexican authorities and was able to protect the Bureau's interests at all times. In view of his outstanding performance it is recommended he be afforded an incentive award in the amount of \$250.

In addition to the incentive awards for SACs Blaylock and Price mentioned above, a number of field offices whose Agents performed outstanding work on this case submitted recommendations for their personnel by teletype. The Administrative Division is handling these recommendations separately based on the information set forth in the teletypes.

In order that a brief picture of the recommendations made by the field may be had, there is set out below by office the number of incentive awards and commendations recommended.

ADDENDUM ADMINISTRATIVE DIVISION NEM:crt 6-21-61

Based on information submitted by Domestic Intelligence Division, the Laboratory, Identification Division and the Crime Records Division, in addition to that furnished by a number of SACs, it is obvious that this important Sabotage case was handled in an exemplary manner and special recognition is warranted. The following are deserving of incentive awards:

SAC Blaylock, Salt Lake City, for the outstanding manner in which he personally took charge of the investigation in his division and was on top of the situation at all times. He handled many inquiries from local military people, as well as officials of American Telegraph and Telephone who were in Salt Lake City. b6

SAC Price, San Diego, who directed an alert, aggressive and highly delicate investigation with Mexican authorities which included location, arrest and extradition of subjects from Mexico and their arraignment and incarceration in San Diego.

SOG Supervisor [] who supervised case at SOG from inception handling a tremendous volume of expedite communications to and from field offices with helpful instructions which were instrumental in breaking this case.

SOG Section Chief Baumgardner for the outstanding direction afforded this investigation from the Bureau. He coordinated all contacts with SACs, Departmental attorneys and Mexican authorities and made many helpful suggestions throughout the investigation.

BUREAU RECORDS:

SAC Blaylock EOD 10-14-40, Grade GS 15, \$15,030. During the past three years services satisfactory with three censures and six commendations. Rated Satisfactory on 1961 annual performance rating. Completely available, weight within desirable limits and overtime above the office average five of past six months.

SAC Price EOD 2-3-41, Grade GS 16, \$15,255. During the past three years services satisfactory with two censures, 13 commendations and two incentive awards, the last on 4-20-61 in recognition of Outstanding 1961 annual performance rating. Completely available and weight within desirable limits. Overtime exceeded the office average each of past six months.

ADDENDUM: (Continued)

Section Chief Baumgardner EOD 12-4-39, Grade GS 16, \$15,515. During the past three years services satisfactory although on 9-16-58 he was censured and placed on probation for derelictions noted during inspection. Removed from probation 3-11-59. Commended on ten occasions and received two incentive awards. Rated Excellent on 1961 annual performance rating. Completely available, weight within desirable limits and overtime exceeded division average each of past six months. b6

SOG Supervisor [] EOD 1-11-43, Grade GS 14, \$13,250. During the past three years services satisfactory with no censures or commendations. Rated Excellent on 1961 annual performance rating. Completely available, weight within desirable limits and overtime above the division average four of past six months.

Based on approved tables for determining the amounts of incentive awards the performances of these men are considered to be of moderate value and broad application to the work of the Bureau entitling them to awards of from \$150 to \$300.

As outlined in the foregoing by Domestic Intelligence Division a number of other SOG personnel are deserving of individual commendations.

Included in the recommendation for commendations is SOG Supervisor Harold P. Leinbaugh, #3 Man of the Crime Records Division who was censured and placed on probation 4-27-61 for failure to exercise good judgment in approving an outgoing communication transmitting a large volume of literature to an individual outside the Bureau. However, in view of his splendid performance in the preparation of the press release in connection with this case it is felt that he should be commended.

RECOMMENDATIONS:

(1) That SACs Leonard Blaylock and Frank L. Price each be approved for an incentive award in the amount of \$250.00 (Amount recommended is in line with previous awards granted for similar performances.) b6

(2) That Section Chief Fred J. Baumgardner and SOG Supervisor [] each be approved for an incentive award in the amount of \$200.00 (Amount recommended is in line with previous awards granted for similar performances.)

ADDENDUM: (Continued)

b6

RECOMMENDATIONS: (Continued)

(3) That individual letters of commendation be directed to #1 Man Joseph A. Sizoo, Supervisor Thomas H. Farrow, Night Supervisor Andrew R. Decker, Stenographer [redacted] of the Domestic Intelligence Division; SAs George A. Berley, [redacted] and James V. Blaine of the Laboratory; Latent Fingerprint Examiner [redacted] of the Identification Division; and, #1 Man Robert E. Wick and Supervisors Charles E. Moore, Jr., and Harold P. Leinbaugh of the Crime Records Division.

(4) It is also felt that Assistant to the Director Alan H. Belmont should be commended for the major contributions he made to the over-all direction of this case.

If approved, appropriate letters are attached.

TELSAD

Early on Sunday morning, May 23, 1961, when the three explosions occurred in instant case, there was extreme concern on the part of the military, American Telephone and Telegraph Co. (AT&T) and the press on a nationwide basis. We were besieged with inquiries about these acts of sabotage. A nationwide alert was placed by the Air Defense Command for fear there would be other acts of sabotage that would adversely affect the national security. Inquiries were also received from the War Room of the Pentagon.

Immediate arrangements were then made by ASAC HEBER M. CLEGG and me to handle this investigation as a major case on a special basis, utilizing a special indices. Agents were dispatched to the scenes of the three explosions by helicopter with other Agents following with equipment in automobiles. All leads of an urgent nature were handled via Long Distance telephone call and teletype by the ASAC and myself. The local military was kept informed of any significant developments of interest to them. AT&T top officials from New York City flew to Salt Lake City to supervise the reinstallation of these vital relay stations and to arrange for guards for all of their stations previously unmanned.

b6

As the Bureau is aware, we encountered extreme difficulty in identifying [redacted], who had deliberately avoided recording any background data under that name. Then, after [redacted] was identified as Subject [redacted] the investigation was directed toward connecting him with the offenses and establishing his whereabouts. There was extreme pressure on locating him and putting a stop to his activities, and at the same time establishing sufficient evidence to cause his apprehension. He had made threats in letters to AT&T, President KENNEDY and numerous other public officials, including newspapers, that the next attacks would be launched against the company's property with poisonous gas. This created great concern and tension among AT&T

officials as well as the military. I mention the above so the Bureau will understand the extreme urgency under which we were operating in directing investigation by this and all other offices, since we suspected [] as being the true offender but at the same time had to take cognizance and action against any other suspects to make certain we were not overlooking any phase of this investigation. This made it necessary for the ASAC and me to devote full time day and night to this case from its beginning to the present time.

Since important leads were being set forth telephonically and by teletype, it was necessary to confer with the Bureau in several instances. I had occasion to confer with the following Bureau officials:

Mr. ALAN H. BELMONT
Mr. JOSEPH A. SIZOO
Mr. FRED J. BAUMGARDNER
Mr. ROBERT K. WICK

I wish to point out to the Director the splendid cooperation and quick responses made by each of the above officials in helping us to resolve an urgent problem. Their spirit and sense of urgency were most helpful to us in keeping this case moving at a rapid pace. Especially, I wish to point out the close coordination with Mr. BAUMGARDNER Saturday night, June 17, and early Sunday morning, June 18, 1961, when we were in constant telephonic communication concerning process and instructions of the Department.

Also, I wish to mention the press release prepared at the Bureau and the splendid effect it had on radio, television and newspapers in this area. The Bureau received full credit for solving this case and locating the Subjects. The press announcement was read in its entirety by radio and television commentators and quoted by newspapers. I had occasion to confer with Mr. WICK prior to this release, and I feel that the work which he and possibly others performed in this preparation is certainly worthy of special mention.

In view of the tremendous importance of this investigation and the successful solution of this case, it is recommended ASAC HEBER M. CLEGG receive an incentive award of \$500.

67-503

The Bureau is aware of the numerous items of evidence collected by Agents at the three scenes of the explosions. I feel that the two Laboratory representatives and Agents of this office who performed all the work at the scenes acquitted themselves in excellent fashion and are certainly worthy of commendation by the Director for their thoroughness, alertness, sense of urgency, effectiveness and determination to establish the identity of the offenders, in addition to the long hours spent on this work. The installations were completely demolished, making it extremely difficult to find all items of evidence that might be pertinent. These Agents are:

GEORGE BERLEY - Laboratory

[redacted] - Laboratory

[redacted] - Salt Lake City

DELMAR L. LARSON

[redacted]
WILLIAM R. STRINGER

[redacted]

b6
It is felt that each of the above Agents should receive a letter from the Director thanking him for his performance.

In addition, it is felt that SA DELMAR L. LARSON should be commended not only for his work at the scene of the explosions, but also for his fine work in preparation of the reports based upon their findings.

In addition, it is pointed out that every Agent, Secretary, Stenographer and Clerk in this office performed work in this case; many remained after hours to complete their assignments and even during the week ends. It is felt that a letter from the Director to the office as a whole thanking all personnel who participated in this case, both investigative and non-investigative, would be appropriate and would certainly be an incentive to all employees.

SU 67-503

b6

This case is continuing as a special investigation until we are certain that Subjects [] and [] had no accomplices in the execution of these explosions who could be prosecuted.

The Bureau is aware of the fine work performed by several other offices in assisting to uncover the identity of [] the first important suspect developed. Also, fine work was performed by several offices assisting in locating [] after he was identified as [] and connecting him with these offenses. I specifically mention the following offices:

b6

El Paso
Houston
Las Vegas
Los Angeles
New Orleans
New York City
San Diego

The Bureau might wish to check with these offices concerning any recommendations for their own personnel, since most of my information is based upon telephone calls and teletypes, not specifically identifying investigative personnel and the techniques they might have employed.

When the Bureau made its press announcements Sunday, June 18, 1961, I received telephone calls from AT&T officials in New York City, San Francisco, Denver and Salt Lake City thanking the FBI for its fine work and emphasizing how much the solution of this case means to their company and personnel. We also received congratulations for the FBI from the local, military, and many prominent citizens in this area. An editorial which appeared June 20, 1961, in THE SALT LAKE TRIBUNE, the leading newspaper in this area, began with, "The Federal Bureau of Investigation did an excellent job in solving the May 23 sabotage of radio-telephone facilities in Utah and Nevada." This editorial is being submitted by separate communication.

Dear Belmont:

It is a distinct pleasure to commend you for the superb fashion in which you carried out your numerous responsibilities at the Seat of Government relative to the investigation and apprehension of [redacted] and [redacted] the subjects of a Kidnaping and Interstate Transportation of Stolen Aircraft case.

You were extremely diplomatic, tactful and efficient in handling liaison with numerous top-level Government executives and you represented the Bureau and protected our interests in an outstanding manner. Your services were vital in this very delicate matter and you played an important role in the success achieved. I want you to know how much I appreciate your exceptionally capable performance.

Sincerely,

ALAN H. Belmont

RECOMMENDATION FOR INCENTIVE AWARD AND RECOMMENDATIONS
 FOR COMMENDATIONS

SAC El Paso recommends \$200 incentive award for SA [REDACTED] and individual letters of commendation for other captioned Agents for their investigative efforts in connection with hijacking of Continental Airlines flight 54, 8/3/61.

b6

SAC El Paso advises SA [REDACTED] during the time that the negotiations were underway between SA Crosby and the subjects, put on an airport equipment uniform and made several reconnaissance trips to the aircraft. Because of these efforts the early accurate information about the situation aboard the plane was received. In addition, just prior to the time that the subjects were taken into custody, SA [REDACTED] exhibited exceptional ingenuity, aggressiveness and courage in surreptitiously entering the forward baggage compartment of the aircraft. He then gained entry to the cockpit in order to be in a position to assist in subduing the subjects if that became necessary. During this time SAC Crosby was in the aircraft attempting to persuade the subjects to surrender. SAC points out that the presence of [REDACTED] in the cockpit and his awareness of it made it possible for him and the Immigration and Naturalization Service Officers to jump the Beardens with a reasonable assurance that they would not be able to get to their firearms.

In regard to individual letters of commendation SAC recommends John F. Hay because he got up out of a sick bed and came to participate in the interviews of witnesses and hostages as soon as he heard of the developments.

RE: SA [redacted]

SAs [redacted] and Harold H. Boyce interviewed [redacted] immediately after his arrest and succeeded in obtaining admissions in spite of his hostility. They exhibited exceptional skill in this regard. In addition, SA Boyce exhibited exceptional aggressiveness and ingenuity in breaking into the cockpit at the time the [redacted] were arrested. SAs Thomas B. White, Jr., and Oliver G. Nordmarken interviewed the younger [redacted]. This was a difficult interview but a signed statement was obtained which will be of great value in the prosecution of the case. In addition, SA White accompanied SA Boyce into the cabin immediately prior to the arrest of the [redacted] and assisted in taking them into custody. This was done in the midst of confusion and required ingenuity, initiative and courage. In addition, SA Nordmarken handled liaison with the military and the Air Force from the inception of the case. He participated in the handling of other law enforcement agencies at the scene. Nordmarken also did the spur of the moment planning for an attack on the aircraft for the arrest of the subjects in the event that it became necessary. This exhibited great thoughtfulness and skill. SA [redacted] was with the SAC continuously from the beginning of the investigation until the arraignment. He made innumerable suggestions which were well thought out and carefully considered. He did the spur of the moment organizing and expediting of the actual fire-power which disabled the aircraft. SA [redacted] was with the SAC when they pursued the aircraft down the runway and exhibited great coolness and deliberation by getting into a position where the demolition of two key tires on the aircraft were assured.

b6

SA James R. Grimes handled many of the phone calls and did much of the screening throughout the long morning, thereby relieving the SAC of that responsibility. He showed excellent judgment in his handling of these matters and in his numerous contacts with other law enforcement agencies and airlines people. He was cool, deliberate and extremely efficient. ASAC Jack C. Spencer handled the dispatch of Agents, communications and equipment to the airport as needed. He handled the press at the office, communications with the Bureau, communications with other agencies with dispatch and efficiency.

The SAC points out that the behavior, discipline, initiative, industry, courage and skill of all persons participating in this investigation were in the best traditions of the Bureau. He recommends a general letter of commendation to the office so that copies may be placed in appropriate personnel files of other participating Agents and El Paso personnel.

Memo to Mr. Belmont

RE: SA []

b6

RECOMMENDATIONS OF THE GENERAL INVESTIGATIVE DIVISION

It is felt that this investigation was handled in a highly commendable fashion and that considerable skill, ingenuity and courage was exhibited to bring the matter to a successful conclusion without injury to passengers, employees of the airlines or Bureau personnel. It is therefore recommended that SA [] be given an incentive award in an amount to be determined by the Administrative Division. It is further recommended that individual letters of commendation be forwarded to the captioned Agents and that a general letter of commendation be forwarded to the SAC so that copies may be placed in appropriate personnel files of other participating Agents as well as stenographic, clerical personnel and the radio operator of the El Paso Office.

Despite the fact that at one time SAC Francis Crosby, under the great stress and tenseness of this situation, made a commitment which should not have been done, his over-all operation and results achieved are believed worthy of special recognition. Crosby took control of a difficult situation, directed the activities of all law enforcement agencies that were present and was recognized by the people there as the spokesman, the leader and the individual that had to save the crew, hostages and plane.

b6

In entering the plane unarmed, which entry permitted the escape of three hostages and five crew members, Crosby demonstrated the utmost courage. His handling of the hour long attempt to induce [] surrender set up the situation and he, despite a weakened physical condition, personally subdued one of the subjects.

It is felt that the over-all work performed by Crosby under this tremendous pressure is worthy of an incentive award, the amount to be determined by the Administrative Division.

I agree. I do not condone the error, but the final results were outstanding.

*↓
Gros*

8-5-61

Based on information submitted by SAC, El Paso, and General Investigative Division it certainly appears that Agents of the El Paso Office are deserving of special recognition for their exemplary handling of this most difficult and dangerous situation under hazardous conditions. SAC Crosby performed outstanding services in directing and dominating the situation, although outnumbered by other interested law enforcement agencies, and subjected himself to extreme personal risk in entering the plane unarmed to deal with these crazed gunmen, and brought about the release of hostages and capture of subjects.

SA [] deserves an incentive award for the outstanding ingenuity and aggressiveness in gaining entry to the aircraft despite the danger involved in order to assist SAC in overcoming subjects.

b6

BUREAU RECORDS

SAC Crosby EOD 2-6-39 and is in Grade GS-15, \$15,030. Rated Excellent on 1961 annual performance report.

SA [] EOD 10-6-47 and is in Grade GS-13, \$11,415. During the last three years his services have been satisfactory with no censures and one commendation. He was rated Excellent on 1961 annual performance report, is completely available, within desirable weight limits, and his overtime exceeded office average three of the last six months.

SAs Hay, [], Boyce, White, Nordmarken, [] Grimes and ASAC Spencer should be individually commended for their very fine participation as cited in the foregoing by General Investigative Division. Other personnel in the El Paso Office who assisted should be commended through a general letter to SAC.

It is also felt that Mr. Belmont should be commended for his very fine performance in handling telephone communications with the White House and other top level individuals and overall direction of this case at the Bureau.

RECOMMENDATIONS:

1. That SAC Francis E. Crosby be approved for an incentive award of \$500.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name	Loretta D. Belmont	Relationship	wife	Date	7/26/61
Address 2711 N. Yucatan Street, Arlington, Va.					

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in the line of duty, other than travel accidents.

Dear Mr. Hoover,

I have received your notice of September 22 concerning the increase in maximum per diem for unusual travel assignments as well as SAC Letter dated September 25 increasing the general maximum rates of per diem.

There is no question but that these increases will be of great benefit to all of us. My reaction to this is that once again, as so often in the past, you have shown your intense interest in the welfare of the employees of the Bureau. This interest on your part is one of the qualities which make all of us so devoted to you personally.

Respectfully,

 The Director has written a very warm and deeply appreciated note to Mr. Belmont concerning the 1961 Liaison Party, and has asked that his gratitude be conveyed to those who took part. This was, of course, a team operation and it was most thoughtful and perceptive of the Director to comment on the work and planning which went into the Liaison Party.

By separate memorandum we have recommended specific commendation for Supervisor Fitzgerald, who was primarily responsible for the spadework. The content of the Director's note is such, however, that we believe a copy should be placed in the personnel files of all those employees of the Liaison Section who participated.

ACTION:

If approved, a copy of the Director's note should be placed in the personnel files of the following:

Dear Belmont:

I want to convey to you and to your associates my appreciation for the very fine manner in which the Liaison Party was handled last evening. The affair was a very successful one and I know that it will do much good in furthering our relationship with other branches of the Government.

I am cognizant of the amount of work and planning which an occasion like this required and I want to thank you for the part which you played in this matter. I would also appreciate it if you would convey my gratitude to your associates who took part in this venture for their assistance and their contributions which helped so much in making this party such an outstanding success.

Dear Belmont:

It is a pleasure to extend my personal and official congratulations on your Twenty-fifth Anniversary of Bureau service and to present your Twenty-five-Year Service Award Key.

During your years of service you have consistently demonstrated your loyalty and devotion to the job which have not only augmented the Bureau's reputation but have also gained many friends for you and the organization. Needless to say, you have made numerous contributions to our progress, particularly through your astute guidance of many difficult security investigations in which we have been engaged. In your present capacity as one of my assistants, the FBI leans heavily upon you to assist in discharging its tremendous responsibilities and in fulfilling its obligations to the public which we all serve.

It is my hope that I may continue to count upon you in the future as in the past and that I may be privileged to extend similar congratulations to you on the occasions of your subsequent anniversaries. REC-145

Mr. Belmont was examined at the National Naval Medical Center on 12 December 1961 with a history of a small negative scotoma in the left eye of seven days' duration which had remained unchanged since onset and was unassociated with other symptoms.

Vision with correction in the right eye was 20/20 and the left eye was 20/70. Examination was normal except for the left macula which revealed a well defined tiny macular hole with very slightly elevated edges surrounding it. There was no hemorrhage. The vitreous was free of cells.

Impression: Macular hole left eye, unknown etiology.

Disposition: Patient was given no therapy and asked to return in three weeks for followup examination.

The Los Angeles Office is currently under inspection and on March 9, 1962, Assistant to the Director A. H. Belmont visited Los Angeles and held a conference with Agents on criminal work. He discussed the Criminal Intelligence Program in an all day session.

I attended the conference for a few hours, heard Mr. Belmont's comments, listened to questions asked by the Agents and observed reactions. I also heard comments by the Agents subsequent to the conference.

Mr. Belmont presented the Director's views in an excellent, sound, practical fashion. He stressed the absolute necessity for results in this program and discussed the ways to achieve same. He urged an all out effort and an imaginative approach. His presence in Los Angeles stimulated the Agents into a further recognition of how important this program is viewed by the Director.

The reaction of the Agents at the conference and in the days following was most encouraging. They liked Mr. Belmont's frank talk, enthusiasm for the program and conviction of success. He answered all the questions candidly and to the point. The appearance of such a high ranking Bureau official acted like a "shot in the arm" to these Agents.

This visit had the desired effect. The Agents seem to have more enthusiasm and are more convinced than ever that the penetration of the underworld can be accomplished and successful prosecutions will result.

MAR 9 1962

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name MRS. LORETTA D. BELMONT	Relationship wife	Date 2/28/62
--	-----------------------------	------------------------

Address
2711 North Yucatan Street, Arlington, Virginia

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in the line of duty, other than travel accidents.

Dear Mr. Hoover:

Yesterday, Mr. Belmont visited our office and I would like to call your attention to some items in connection with his visit.

His discussion of the Criminal Intelligence Program with the 327 agents assigned to the Criminal Division of this office had a tremendous effect on our personnel. I am sure it has given them a greater insight into the Bureau's overall problem and will produce positive results. Secondly, your making your personal representative available and carrying your message to the men was most helpful in reassuring them of your personal interest.

Finally, I would like to comment on Mr. Belmont's own devotion to you and the Bureau as demonstrated by his schedule yesterday. At 8:15 a.m., he started speaking to all the criminal agents; then handled questions from them, finishing after 11:00 a.m. At twelve noon, at a sandwich luncheon, he continued his discussion with the ASACS and our criminal supervisors. At 1:00 p.m., he renewed his discussion with those agents specifically assigned to the Criminal Intelligence Program. Upon the conclusion of this, we assembled the espionage supervisors, who occupied him until 4:30 p.m., at which time we assembled the security supervisors who kept him until 6:00 p.m., at which time we had dinner, returning to the office immediately thereafter and conferring with myself and the ASACS of this office until 11:00 p.m. This must have been a long, difficult day for Mr. Belmont, yet he never lost his enthusiasm, drive and unfailing searching for ways and means to help us completely correlate our thinking with that of yourself and the Bureau.

I felt his visit was tremendously helpful to us.

Sincerely,

H. G. FOSTER

For record purposes this is to advise that , the son of (a friend of mine and Bureau contact), gave my name as a character reference in connection with his application for appointment as a commissioned officer in the U.S.Navy.

Inasmuch as I have known this boy for more than ten years, I have filled out and returned to the Navy the reference statement, indicating that to my knowledge he is a person of excellent character, but that this was my personal recommendation only.

ALAN H. BELMONT
ASSISTANT TO THE DIRECTOR- *Investigative*
ENTERED ON DUTY NOVEMBER 30, 1936

Mr. Belmont during the first two months of this rating period was Assistant Director in charge of the Domestic Intelligence Division and was directly responsible for the Bureau's activities with regard to internal security, espionage and related intelligence matters. As such he was rated Outstanding on his last annual performance report. For the major portion of this rating period he has been assigned as Assistant to the Director in charge of the Laboratory, General Investigative, Special Investigative and Domestic Intelligence Divisions where he has discharged his many and varied responsibilities in such an exceptional manner as to warrant an Outstanding performance rating for the period April 1, 1961, through March 31, 1962.

In his more than twenty-five years of service Mr. Belmont has had extensive and diversified experience as an investigator, supervisor, administrator and executive. He makes an immaculate personal appearance, has a vigorous personality and is tremendously effective in his personal contacts. These outstanding qualities, coupled with his imaginative thinking, unusual perception, impartial judgment and keen understanding of the work of the Bureau, characterize his eminent qualifications for his present position as number three man in the Bureau.

The continued acuteness of the international situation, new legislation and additional programs of the executive branch have greatly increased the Bureau's investigative activities during the past year resulting in the assumption of even greater burdens by the top executive staff. Mr. Belmont has had to shoulder a large share of the increased responsibilities and has done so in a highly

efficient manner. He is a foremost authority in the handling of complicated investigative matters and is deserving of much credit for the success the Bureau has enjoyed both in the security and criminal fields. During this rating period he made substantial contributions to the solution of major cases involving kidnaping, sabotage and anti-racketeering as well as to major breakthroughs in the field of internal security and counterespionage. His comprehensive background in the field of espionage has contributed greatly to his most aggressive and penetrative approach to our investigation of criminal intelligence activities which is reflected in the excellent results attained in this new area of our responsibilities.

Mr. Belmont has handled every aspect of his work in a superior manner and his assumption of top-level responsibilities has been of immeasurable assistance to the Director and to me. He is a dedicated career employee who has added stature to his position in serving the Bureau and the entire Government with that distinction which definitely merits this Outstanding performance rating.

OUTSTANDING ANNUAL PERFORMANCE RATING

There is attached for approval the annual performance rating for Mr. Belmont covering the period from April 1, 1961, through March 31, 1962, rating his services as Outstanding. I have signed the rating as the rating official, since I sincerely feel that the performance of this man during the rating period has been outstanding and in complete conformance to the performance rating standards covering Outstanding ratings.

In the event you approve this rating, I respectfully request that you sign both the original and the copy, on the line, as Approving Officer. Thereafter it must be submitted to Deputy Attorney General Byron R. White in the Department for approval by the Efficiency Awards Committee. Upon approval of this rating by the Efficiency Awards Committee, it will be returned to the Bureau and Mr. Belmont will be furnished a copy of his rating. He will also be entitled to a cash incentive award under the provisions of the Incentive Awards Plan. You recall that you have authorization under the delegation from the Attorney General to approve such awards up to \$500, which is the customary amount that has been approved for Assistant Directors and above. For officials below the level of Assistant Director, who are in Grade GS 16 or above, it has been customary to approve awards of \$400. For those below Grade GS 16, awards of \$300 have been approved.

Should you agree with the foregoing, this rating will be forwarded to the Department for approval at such time as the Outstanding ratings on the Assistant Directors and Special Agents in Charge have been prepared and approved in the Bureau. When these ratings have been approved by the Department, necessary checks will be drawn and letters prepared for your signature.

Patient sees no real improvement in his symptoms metamorphopsia and small central scotoma. He reads the chart ^{with} into the left eye using eccentric fixation.

Examination of the left macula through dilated pupil reveals the vitreous directly anterior to the retina to be clear. Again the macular picture has changed from that seen originally 12/12/61 and does not have the appearance of a macular hole. Instead there is a small area of depigmentation but no definite edges noted.

Visual acuity has cleared slightly at least according to Snellen chart, but there is no improvement of symptoms - perhaps with time further improvement in symptoms (metamorphopsia-scotoma) may occur.

Recommend recheck in three months.

ORIGINAL DOCUMENT SENT TO
NATIONAL ARCHIVES (JFKARCA)
DATE 3-10-88 *78219 Belmont, Alan**JFKP99*

Reference is made to Mr. Tolson's memorandum of May 24, 1962, wherein he refers to Mr. DeLoach's memorandum dated May 24, 1962, reflecting a telephone call from Mr. [redacted] of Mr. Guthman's Office at 9:45 a.m., May 24, 1962, and a subsequent call the same day at 1:00 p.m. There is also attached a copy of the teletype from the Special Agent in Charge (SAC) at El Paso, which was received in the Teletype Unit of the Bureau at 1:34 a.m., May 24, 1962.

It is noted that the teletype was furnished by the El Paso Office at the specific request of the Bureau. The information in the teletype is incorporated in my memorandum to Mr. Belmont dated May 24, 1962, which was gotten together late the evening of May 23, 1962, and the morning of May 24, 1962, after the teletype from the El Paso Office was analyzed and in order that a complete picture would be presented to the Director inasmuch as the El Paso teletype did not reflect the action taken at the Seat of Government.

I never heard of this until after 3.30 P.M. May 24.
It is noted that the information requested of the El Paso Office was based upon the fact that Mr. DeLoach had indicated on the evening of May 23, 1962, that Dr. John Dunn allegedly had spoken to the FBI back in 1961, concerning Billie Sol Estes. Mr. DeLoach indicated that his inquiry was based upon a call which he had received on May 23, 1962, from Mr. Guthman's Office. At the time Mr. DeLoach's memorandum of May 24, 1962, was received reflecting his telephone call from Jack Rosenthal of Mr. Guthman's Office at 9:45 a.m., May 24, 1962, and again at 1:00 p.m., May 24, 1962, my memorandum of May 24, 1962, reviewing this situation was actually prepared but had not been transmitted.

Why was I not alerted & why was there no copy of teletype from El Paso received at 1:34 A.M. May 24? In fact I didn't reach me until after 3.30 P.M. May 24 - 14 hrs after receipt.

Memorandum to Mr. Belmont
RE: BILLIE SOL ESTES

The teletype dated at El Paso, May 23, 1962, which was received in the Teletype Unit at 1:34 a.m., May 24, 1962, was not called to the Director's attention inasmuch as the substance of the information was incorporated in my memorandum of May 24, 1962, and as the El Paso teletype was not complete.

But this didn't reach me until 3:30 P.M. May 24
When the Billie Sol Estes case recently came into prominence, the closed case involving Billie Estes in which the United States Attorney (USA) at El Paso, Texas, had declined prosecution, should have been called to the Director's attention. It is deeply regretted this was not done heretofore. The current case which was initiated on the basis of a specific allegation received from Dr. Dunn on March 6, 1962, which resulted in an arrest and indictment as a result of the FBI investigation, has mushroomed into so many facets that through inadvertence the closed matter was not heretofore mentioned. Nevertheless, it should have been called to the Director's attention.

This is an overstatement. It was Dr. Dunn's paper which really spearheaded it.
With specific reference to the handling of the 1961 matter concerning Billie Sol Estes, the information growing out of information furnished the Bureau was given to the main Department of Justice. The information was furnished on July 24, 1961. The Department of Justice was also furnished a copy of a memorandum prepared by our El Paso, Texas, Office dated July 17, 1961, captioned "Billie Sol Estes, Pecos, Texas, Possible Federal Reserve Act." This was actually forwarded under date of July 24, 1961, to the Records Administration Office of the Department of Justice and was specifically checked for the attention of the Criminal Division. There is attached for your ready reference a copy of the memorandum of July 17, 1961.

Just what do we have in writing although I don't mind material to Dept of Agriculture
An identical copy of the above memorandum of July 17, 1961, was also transmitted to the Department of Agriculture on October 27, 1961, pursuant to a request for a name check on Billie Sol Estes.

Insofar as the main Department of Justice is concerned, in reference to the decision of the USA at El Paso, there is set forth the procedure followed by the Criminal Division to point out the manner in which the Department handles and treats our reports. Upon receipt

Memorandum to Mr. Belmont
RE: BILLIE SOL ESTES

of memoranda or reports which set forth the opinions of USAs and in those instances when the USA reaches the conclusion that no further action is warranted, it is understood that the attorney in the Department prepares a brief analysis of the facts and indicates whether he concurs with the opinion submitted by the USA.

This procedure is true in Federal Reserve Act cases and the case which was submitted to the Department initially in the Billie Sol Estes matter was carried under the caption of Federal Reserve Act. It is particularly noteworthy to point out that our memorandum of July 17, 1961, which was sent to the Department on July 24, 1961, closing this case and incorporating the opinion of the USA, was analyzed by the Departmental Attorneys. In this connection a supervisor who maintains liaison with the Departmental Attorneys handling Federal Reserve Act matters recalls a conversation which he overheard the early part of this week in reference to the Billie Sol Estes case. He overheard a conversation between Departmental Attorneys Charles Carroll and Irvin Jenkins, who were discussing the Estes case. Mr. Carroll stated that he recalled having analyzed the Federal Reserve Act aspects of the Estes matter. Mr. Carroll said he wrote a memorandum concurring with the USA's declination opinion. Mr. Jenkins stated that he also recalled this matter as he had approved it at the time he was acting as Section Chief.

F. A. Frohbose

A check of the file in this case shows that the only reference to President Martin of Bethlehem Steel and his wife being out for the evening is contained as a footnote to a memorandum dated April 13, 1962, from Evans to Belmont (attached).

When this memorandum reached the Director's office a question was raised as to what was meant by the word "late," with reference to the time the Agents interviewed Martin.

ALBERT J.

The footnote was added, based on information furnished by Section Chief McGrath. Mr. McGrath advises he received this information from two telephone calls made to Philadelphia on the night of April 11, 1962, and the early morning of April 12, 1962. The first call was at 11:30 P.M., April 11, 1962, when McGrath spoke to SAC Frohbose to determine the status of the interview with Martin. Frohbose advised McGrath that the Agents were having difficulty in interviewing Martin as he and his wife were out for the evening. He stated that as soon as Martin arrived home he would be promptly interviewed and the results furnished to the Bureau. He was told to have the results of the interview telephoned to the Bureau when accomplished. At 12:14 A.M., April 12, 1962, Special Agent [redacted] Allentown, Pennsylvania, Resident Agent, telephonically contacted McGrath and furnished the results of the interview. He indicated the interview of Martin had just been completed. Based on this information, when McGrath was asked to expand on the word "late" in the April 13, 1962, memorandum, he furnished the wording of the footnote.

SAC Frohbose was contacted the night of May 10, 1962, regarding this. He advised that he told McGrath that the Agents had not been able to interview Martin because Mr. and Mrs. Martin were out. This was based on his conversation with the Resident Agent who had talked to the Martin maid. The maid had a heavy German accent and was, therefore, hard to converse with. It was Frohbose's understanding from his discussion with the Resident Agent that Mr. and Mrs. Martin were out. The Agents advised Frohbose of the results of the completed interview about midnight after marshaling their facts and Frohbose instructed that they call the Bureau at once, which they did.

Memorandum to Mr. Tolson
Re: Increase in the Price of Steel

RECOMMENDATION:

The Director has the responsibility for defending the position taken by the Bureau on all matters and in so doing of necessity has to be furnished with pertinent and accurate information. In this case the Director was misled.

Special Agent in Charge Frohbose of the Philadelphia Office was charged with responsibility for having Martin interviewed promptly and the Bureau advised of the results. He was fully aware of the important nature of this matter and the necessity for consummating this interview without delay. Frohbose, after being followed by the Bureau as to the status of this interview, furnished misinformation to the effect that his office was unable to interview Martin because he and his wife were out for the evening, but that his Agents were on the scene and would interview Martin as soon as he was available. This was at 11:30 P.M., on April 11, 1962.

This information was the basis for the Director's statement to the President concerning the lateness of the interview with Martin. In view of this dereliction, it is recommended that SAC Frohbose be censured.

Although SA McGrath relied on the information he had received from the Philadelphia Office concerning the interview of Martin, and acted on this information as a matter of expediency, he feels that it is possible that had he pinned down that office to specifics at the time the footnote in question was prepared, the true circumstances of Martin's interview might have been obtained. McGrath recommends that he be censured for not having taken this additional precautionary step. I concur.

Mr. Belmont should also be censured. He did not run down the specifics of this matter until after the Director had talked to the President, despite the fact that the Director told Belmont he had been using this information as a defense for the Bureau's position.

In accordance with the Director's instructions that personnel responsible are to be censured for not calling to the Director's attention the 1961 closed case concerning Billie Sol Estes, when this matter came into prominence, the following persons are responsible:

Special Agent Supervisor Thomas W. Curran and Section Chief William B. Welte, both who were aware of the prior information concerning Estes.

Alex Rosen

Inspector James R. Malley who was aware of the information having had it brought to his attention some time after the instant investigation came into prominence.

I have gone over in detail the manner in which the above men handled this matter and they have emphatically told me that there was absolutely no intention to withhold this information. They have advised me that they are mortified of the fact that this information was not called to the Director's attention when this matter came into prominence but they had been working around the clock on this matter and it was only through inadvertence and because so many items of current and immediate interest were occurring that required immediate handling that this situation developed. They deeply regret that this occurred and wish to assure the Director that such a situation will not again occur.

Supervisor [redacted] who overheard a conversation between two Departmental Attorneys either on May 22 or May 23, 1962, during which they said they agreed with the U. S. Attorney's decision in 1961 declining action in the Billie Sol Estes case. [redacted] was in the Department on May 22 or 23, 1962, on another matter not involving the Estes case. He is the Supervisor who handled the 1961 closed case concerning Estes, and while in the Department overheard the conversation. On Wednesday night, May 23, at the time this matter was being checked into, having been called to our

attention the evening of May 23, Supervisor [] recalled this conversation and it was then incorporated in the memorandum prepared on May 24, 1962.

Assistant Director Rosen for the manner in which this case was handled in the General Investigative Division. I was not aware of the 1961 closed case concerning Billie Sol Estes, however, when it was called to my attention on the evening of May 23, 1962, an immediate inquiry was instituted into the situation in order to determine the facts and the results thereof were prepared for the Director's information. I deeply regret that this information was not made available to the Director the first thing the morning of May 24, 1962, when the results were called to my attention.

f

ADDENDUM (5/28/62):

Mr. Rosen advised me of the previous inquiry concerning Estes on the evening of 5/23/62, at which time we agreed that a memorandum should be prepared giving the Director the full facts on this, for the Director's information.

I went to the Bethesda Hospital at 9:45 a.m. the next day, 5/24, for a checkup, at which time the memorandum had not arrived at my office. I should have insured that the Director was notified of this situation prior to my departure for the hospital.

b6

It is recommended that the Bureau personnel mentioned in this memorandum, namely Curran, Welte, Malley, [] Rosen and Belmont, be censured for failure to keep the Director advised promptly.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by Check - Money Order) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Dear Mr. Belmont:

There was no justification whatever for the failure of the General Investigative Division to immediately bring to my attention information concerning a closed investigation of Billie Sol Estes, which was conducted by this Bureau in 1961. When you learned of this fact on May 23, 1962, during the current major investigation of Estes, you should have taken immediate steps to inform me. Your failure to do this was inexcusable.

The handling of this matter by you and your subordinates was most unsatisfactory and I shall expect you to take prompt measures to prevent any similar failure in the future.

Very truly yours,

Dear Sir:

In continuing my employment in the Federal Bureau of Investigation, United States Department of Justice, I hereby agree that I will be governed by the following provisions.

1. That the strictly confidential character of any and all information secured by me or coming to my attention in connection, directly or indirectly, with my work as an employee of this Bureau, or the work of other employees of which I may become cognizant; is fully understood by me; and that neither during my tenure of service with the Federal Bureau of Investigation, nor at any time, will I violate this confidence nor will I divulge any information of any kind or character whatsoever that may become known to me to persons not officially entitled thereto, recognizing applicability to me of penalty provisions in case of any violation by me.
2. That information referred to in Item 1 above includes but is by no means limited to information in the interests of the defense of the United States marked "Top Secret," "Secret," or "Confidential," and that Department of Justice regulations provide specifically for penalty applicable to me for any violation of Executive Order 10501, the basic authority for safeguarding such information, as follows: "Any officer or employee who violates any provision of Executive Order No. 10501, as amended, or of these regulations shall be subject to appropriate disciplinary action. Prompt and stringent administrative action shall be taken against any officer or employee determined to have been knowingly responsible for any release or disclosure of classified defense information or material except in the manner authorized by these regulations. Whenever a violation of criminal statutes may be involved in a deliberate unauthorized release or disclosure of classified defense information, criminal prosecution, in an appropriate case, shall also be instituted."

I further certify that the conditions specified herein are agreeable to me, and that I continue as an employee of the Federal Bureau of Investigation with a full knowledge of the conditions above set forth.

OUTSTANDING ANNUAL PERFORMANCE RATINGS

Pursuant to your instructions that all members of the Executive Conference be given Outstanding annual performance ratings, there are attached such ratings in duplicate covering Mr. Belmont's and Mr. Mohr's services from April 1, 1962, through March 31, 1963. I have signed these ratings as the Rating Official.

In the event you approve these ratings, I respectfully request that you sign both the originals and the copies, on the line, as Approving Officer. Thereafter, they must be submitted to the Deputy Attorney General in the Department for approval by the Efficiency Awards Committee. Upon approval of these ratings by the Efficiency Awards Committee, they will be returned to the Bureau and Mr. Belmont and Mr. Mohr each will be furnished a copy of his rating. They will also be entitled to cash incentive awards under the provisions of the Incentive Awards Plan. You recall that you have authorization under the delegation from the Attorney General to approve such awards up to \$500, which is the customary amount that has been approved for Assistant Directors and above. For officials below the level of Assistant Director, who are in Grade GS 16 or above, it has been customary to approve awards of \$400. For those in Grades GS 15 through GS 13 awards of \$300 have been approved and \$200 awards for those in Grade GS 12 and below.

Should you agree with the foregoing, these ratings will be forwarded to the Department on 4-1-63, together with Outstanding ratings of all members of the Executive Conference.

RECOMMENDATION:

(1) That you, as Approving Official, sign the original and copy of the Outstanding performance ratings for Mr. Belmont and Mr. Mohr and upon approval of the ratings by the Efficiency Awards Committee of the Department they be approved for awards of \$500.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by Check - Money Order) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur.

ALAN H. BELMONT
ASSISTANT TO THE DIRECTOR - INVESTIGATIVE

Mr. Belmont in his position as Assistant to the Director has under his direction and immediate supervision the Laboratory, General Investigative, Special Investigative and Domestic Intelligence Divisions and in this capacity has unqualifiedly earned a rating of Outstanding for the annual performance rating period April 1, 1962, to March 31, 1963.

Possessing all the highest attributes needed to discharge the very heavy responsibilities of his office, Mr. Belmont has demonstrated unusual insight into every phase of security and criminal matters, as investigated by the Bureau. This enables him to meticulously analyze and direct those operations over which he has responsibility. Due to the continuing acuteness of the international situation and the rising crime rate, he has had to assume ever-increasing responsibilities, which he has handled with unerring judgment and keen perception. He has the ability to quickly reach the heart of any problem, to make those decisions which are in the best interest of the Bureau and to issue sound and succinct instructions. Mr. Belmont is an outstanding authority on internal security and domestic and foreign intelligence, as well as criminal matters. His zeal in achieving success for the Bureau in these fields is unsurpassed. He has the unusual ability of obtaining maximum performance from his subordinates, sets an inspiring example for his associates and has succeeded in promoting the highest morale among our employees.

Mr. Belmont has been an outstanding Bureau official in every respect and has dedicated all his talents and energies to the proper fulfillment of his responsibilities. He has served the Bureau with distinction and merits this Outstanding rating.

Dear Belmont:

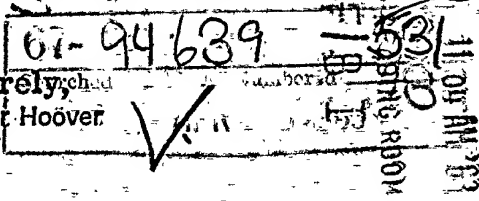

I am pleased to advise that you have been afforded an Outstanding performance rating for your services covering the period April 1, 1962, to March 31, 1963, which has been approved by the Efficiency Awards Committee of the Department. A copy of this rating is enclosed, which you may retain.

Your performance for the past year has been superior and, in recognition thereof, I have approved an incentive award for you. The enclosed check for \$410.00 represents an award of \$500.00 less withholding tax. You have continued to discharge your heavy responsibilities in a highly capable manner and I want you to know I am deeply appreciative.

Sincerely,
J. Edgar Hoover

Dear Mr. Hoover:

I was most pleased to receive your letter today, and the incentive award which accompanied it.

I do think that one of the greatest satisfactions we get out of our Bureau work is coming face to face with the challenges which constantly develop, and trying to come up with a satisfactory solution in as great a percentage as possible. Your remarks in the letter overstate my part in this, but I am most appreciative of your kindness.

The investigation of this highly sensitive and nationally prominent matter was climaxed by the arrest of the subject during the evening of 6-22-63. The success achieved and the very fine publicity the Bureau received is attributed greatly to the direction and personal supervision afforded the matter by Mr. Belmont who has followed this situation closely and worked long hours over the past weekend until it was completed. Based on his unusual contributions to this matter it is recommended that he receive a \$500.00 incentive award.

If you approve, appropriate letter is attached.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur.

Dear Belmont:

I want you to know how much I appreciate your exceptionally fine supervision of the investigation of the assassination of the President and the Kidnaping case involving [redacted] and others and in recognition thereof I am pleased to advise that I have approved an incentive award for you in the amount of \$300.00. The check for \$246.00 which is enclosed represents this award less withholding tax.

You were unusually diligent, aggressive and thorough in carrying out your numerous responsibilities during the course of these two extensive and intensive investigations and the dedication to the FBI you exhibited in voluntarily foregoing your personal convenience in order to discharge your duties was particularly noteworthy. Again, you have displayed the highest degree of ability and I do not want the opportunity to pass without commending you.

Sincerely,
J. Edgar Hoover

Dear Mr. Hoover:

Thank you so much for your
letter and incentive award which I
received today.

I am happy indeed that the
investigations were successfully
carried out and that I had a part in
them. However, I also want to tell
you that it was a great pleasure to
receive your advice and guidance as
these matters developed. As has been
true so many times, your personal
participation made it possible to
bring about the desired results.

Mr. Alan H. Belmont
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Belmont:

I have reviewed the results of the recent inspection of the Domestic Intelligence Division. Based on the findings of the Inspector the division was rated very good in all phases: Physical Condition and Maintenance, Investigative Operations, Administrative Operations, Personnel Matters and Contacts.

It was ascertained the space occupied by the Domestic Intelligence Division, both in the Justice Building and the Identification Building, is being utilized to the maximum and the space assigned is well organized with very good over-all appearance and physical condition. There was every indication you and the personnel in the division are aware of the necessity of presenting a pleasant, business-like operation. The establishment of headquarters for extra-duty night and weekend personnel in the office of Inspector Moore should afford a tighter control point for this important operation and at the same time preserve the decor of your executive office which has had many material improvements.

I am particularly pleased with the positive approach you and the division have taken to meet the problem of identifying illegal espionage agents and the increased emphasis placed on developing security intelligence. The recent identification of two espionage agents solely through investigative efforts directed by the division and the ascertainment of information by a top informant showing an ideological

dispute between Russia and Red China are examples bearing out the need for forward thinking. This should continue to receive aggressive, positive attention looking towards most effective penetration of the Soviet and Soviet-bloc intelligence operations and the timely development of information of value affecting both national and international matters. (S)

A survey of security informant coverage reveals an increase both in total informants and informants who are members of the Communist Party. This is a favorable trend. The increase of twenty-six in the development of "Double Agents" and thirty-six in potential "Double Agents" is reassuring, particularly when positive results have been shown in the number of foreign intelligence agents identified. The effectiveness of this program which accomplished the expulsion of Soviet-bloc espionage personnel is most gratifying.

[The National Security Agency has estimated information supplied since February 1, 1959, by the FBI on cryptographic material is valued at \$960,000 in time and labor saved.] Intelligence information of national and international importance furnished to other agencies has resulted in highly favorable regard for the work of the FBI. All of these cited achievements must not lull you into a sense of complacency but should serve as a challenge to constantly plan and develop new avenues leading to the most comprehensive coverage. (S)(u)

The Inspector made an analysis of the field delinquency in classifications supervised by the Domestic Intelligence Division. For the period checked, security delinquency increased from 8.9 per cent to 11.2 per cent, substantially above the over-all Bureau delinquency. This is a most undesirable trend. It was noted delinquencies were aggressively called to the field's attention with follow-ups to insure remedial action taken. This should be a continuing check as it is most essential to keep all of our work in a current status.

The Inspector found the Domestic Intelligence Division affords cases effective supervision. Although the incidence of error in outgoing correspondence was noted to be low, I want to reaffirm the Inspector's instructions that you continue to stress the need for accuracy at all levels of operation.

Mr. Alan H. Belmont

~~SECRET~~

I note that correspondence from citizens inquiring generally about security matters is answered from a control desk as these cannot initially be identified with substantive investigations and the inquiries require some policy consideration in preparing an answer. You are to insure that any such correspondence which can be clearly identified as pertaining to an investigative matter be assigned for handling to the desk responsible for supervising such investigations. This should receive your personal attention.

You should expedite the purge of administrative and form-type mail, dealing with highly confidential techniques, presently maintained in your division. This will materially reduce the filing space needed for these records. Mail of this type should be reviewed on a continuing basis.

It was the Inspector's evaluation that your present complement of personnel is satisfactory and on a section-by-section basis the work load is adequate and equitably distributed. I desire that you continue to follow the work load closely for any shift, particularly in areas of increased emphasis, and consider realignment of personnel within the division where warranted. It is reassuring to note you have not found it necessary to request additional personnel, other than necessary replacements.

The Inspector reported morale throughout the division was high and there was an excellent showing of employee interest and enthusiasm. Voluntary overtime was found to be equitable, unscheduled and productive. Exit interviews with Special Agent personnel should be conducted by you or the official acting in your absence in every instance. You should follow the Inspector's suggestion that Section Chiefs or persons acting for them present letters of commendation to clerical employees and add their oral congratulations. This will emphasize to the employee the Bureau's appreciation of valuable services performed.

Present procedures in handling mail have resulted in an even flow of mail both within and from the Domestic Intelligence Division. A workable balance in the flow of mail must be maintained and I desire you to continue to afford this matter your close personal attention to avoid development of bottlenecks or delinquencies.

~~SECRET~~

Mr. Alan H. Belmont

As you know, I consider economy an important facet in our operations, and I am pleased the inspection found you and your fellow employees are alert to install streamlining procedures and money-saving devices. You should continue to encourage a high number of suggestions for improvement both within the division and on a Bureau-wide basis.

It was most reassuring to note the high number of speeches given by personnel in your division, particularly those of Chief Inspector Sullivan which have received such a commendatory response. This is an important key to our responsibility to alert the American public to the communist menace within the nation as well as the espionage threat from abroad. Your alertness to the importance of contacts and the necessity of widespread liaison functions, both domestic and foreign, is indeed gratifying.

The various findings of the Inspection Staff brought to your attention in the summary memorandum left with you by the Inspector and as set forth in the inspection report and in this letter should be carefully reviewed by you and your supervisory staff. You should inform the Training and Inspection Division promptly and in detail of the action taken by you to correct the delinquencies and to act upon the suggestions made during the course of the inspection.

Sincerely yours,

John Edgar Hoover
Director

SUBJECT: INSPECTION - DOMESTIC INTELLIGENCE DIVISION

E. C. WILLIAMS, INSPECTION STAFF

OCTOBER 26 - NOVEMBER 18, 1960

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 11/11/01 BY 60321 JTB

SYNOPSIS

Officials: A. H. Belmont, Assistant Director since 9/30/51; Inspector J. A. Sizoo, No. 1 Man and Branch Chief (Internal Security - Liaison Branch) since 9/15/51; Inspector D. E. Moore, Branch Chief (Espionage - Central Research Branch) since 10/14/56. Last inspection 7/23/58 to 10/31/58, recheck inspection 2/16/59 to 3/6/59.

Physical Condition and Maintenance - Very Good. Space maintained in orderly fashion and generally neat and clean. Immediate corrective attention afforded minor housekeeping delinquencies, none of which affected safety or of substantive nature. Operations of night and weekend duty supervisor desk moved from Assistant Director's Office to outer office.

Investigative Operations - Very Good. Work load equitably distributed and adequate. Mail flow smooth. Field delinquency increasing and above over-all Bureau delinquency. Instructed to reduce. Emphasis on espionage and intelligence operations with positive aggressive approach has resulted in identification of two "sleeper type" espionage agents through Bureau investigations as well as development of timely intelligence information and identity of foreign intelligence agents. Instructed to continue forward approach. Security informant coverage and double agents increased with informant coverage of Communist Party 7.86%. Foreign liaison added in 9 countries and cryptographic material obtained through aggressive effort which is valued at \$960,000. ~~SECRET~~ (U)

Administrative Operations - Very Good. Supervisory responsibility fixed for effective operations and policy guidance to field adequate and in conformity with Bureau regulations. Division instructed to insure assignment of citizen letters clearly identified with substantive matters to substantive desks. Purge of administrative and form-type mail in "JUNE" file (Division record of highly confidential techniques), concurred in by Division, expected to result in excess of 50% records space saving. Division alert to economy.

Personnel Matters - Very Good. Personnel adequate, not excessive. Morale high. Employee interest and enthusiasm high with solid teamwork operation. All Agent personnel within desirable weight limits. Overtime equitable and productive. Division average 3 months - 2'34".

RECOMMENDATIONS: 1. Assistant Director Alan H. Belmont, EOD 11/30/36; GS-18 @ \$18,500; Domestic Intelligence Division since 2/27/50; Assistant Director since 9/30/51; age 53. Mr. Belmont has developed a solid team effort through aggressive leadership and with a firm but fair approach. With a thorough knowledge of security operations he commands complete respect for his decisions and ability to put them into effect. Current efficient operations warrant his retention and the attached letter if approved, will set forth findings of the Inspection.

JTM *WSC*

2. Inspector Joseph A. Sizoo, No. 1 Man; EOD 7/10/35 (clerk) 11/1/38, (SA) since 9/15/53 in division; age 49; GS-17 @ \$16,790. A capable and loyal Bureau executive who has demonstrated ability to run Division in absence of Mr. Belmont. Being thoroughly conversant with policies and problems inherent in security work he affords effective leadership in this field. Mr. Belmont advises Sizoo is most competent in handling his responsibilities and Inspector concurs. Recommend he be retained in his assignment consistent with the needs of the service.

JTM *WSC*

3. Inspector Donald E. Moore, EOD 3/10/41; GS-17 @ \$16,530, in present position since 10/14/56; age 42. Mr. Moore is responsible for intelligence operations of the division and has proven himself to be a strong administrator with thorough knowledge of operations and ability to take charge of complicated investigative problems. He makes an excellent appearance and affords aggressive leadership within Division. Mr. Belmont advises Moore has excelled in handling his responsibilities and Inspector concurs. Recommend he be retained in present assignment and be considered for additional responsibilities consistent with the needs of the service.

JTM *WSC*

4. If approved, the attached letter should be sent to Mr. Belmont summarizing the inspection findings.

Re: Inspection - Domestic Intelligence Division

DETAILS

~~SECRET~~

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Division occupies space first floor (Front Office, Internal Security Section, Subversive Control Section, Nationalities Intelligence Section), second floor (Espionage Section) and seventh floor (Liaison Section and Central Research Section) of Justice Building and sixth floor Identification Building (IB) (Name Check Section). Making maximum use of space available. All space found to be maintained in orderly fashion, generally neat and clean. Night and weekend supervisors desk installed in office of Inspector D. E. Moore to remove these operations from Assistant Director's Office reducing traffic. Units within sections contiguously located and sections suitably located consistent with available space. Name Check Section properly located in IB near files in view of large file review operation.

Minor housekeeping delinquencies ordered corrected on spot or arrangements made to have corrected at earliest date. None affecting safety or of substantive nature. General Services Administration schedule controls repainting, this being followed by Division. Repair orders being handled individually, on current basis.

INVESTIGATIVE OPERATIONS VERY GOOD

Work load on section by section basis determined to be equitably distributed and adequate. Pending origin matters in field as of 10/1/60 was 18,808 decrease of 8.1% compared to over-all Bureau drop of 10.5% since recheck inspection. Principal decrease in general communist matters. Increase of 44% (1522 cases) in matters involving nationalistic tendencies, particularly in area of Cuba and Latin America. Delinquency in matters supervised by division increased during period July - September, 1960, from 8.9% to 11.2% while Bureau delinquency for same period ranged from 6% to 6.8%. Emphasis placed with Division to reduce over-all delinquency. Buffalo Division consistently over 12% during period checked with high of 17.9% in September, 1960, being followed for steps initiated to reduce. Division to follow offices with continuing high delinquency and instructed to reduce.

Study of mail flow both incoming and outgoing noted no areas of delay. Signature mail being received steadily at all executive levels. Six week analysis of mail delinquency discloses aggressive steps taken to control and no imbalance with regard to personnel and work assignments. Mail count determined all personnel sharing in work load on equitable productive basis. Review of 186 cases, including ten most important cases in each section developed no substantive or form errors.

Memo to Mr. Mohr

Re: Inspection - Domestic Intelligence Division

~~SECRET~~

Division has placed emphasis on espionage and intelligence operations directed towards penetration of Soviet Intelligence with noteworthy accomplishments. Since February 18, 1959, considerable increase in development of "Double Agents" (26) and potential (36). During same period 41 foreign intelligence agents identified and information developed resulted in Soviet-Bloc officials being declared persona non grata. Division has taken positive approach to identify illegal Agents as exemplified by program to review new Social Security applications which has turned up two illegal Agents. One being developed as double agent and other being checked out for possible development. Division successful in developing intelligence of national and international importance, dissemination of which has resulted in highly commendatory statements regarding Bureau's work. Division alert to responsibility to develop and disseminate information of intelligence value. [During the period since the recheck inspection the Division has furnished cryptographic material originating with 8 countries to the National Security Agency. This has been evaluated at \$960,000 in time and labor saved.] (u)

Ceiling of 90 technical surveillances being closely observed. As of 10/31/60, 86 were in operation, all closely supervised and adequately justified. Technical instructions furnished improving handling of remote control installation.

(U) [Two informants in top echelon of Communist Party have made seven missions to Soviet and other Communist countries developing extensive international intelligence including summary of Soviet document dealing with ideological dispute between Soviet and Red China.] This data extremely important to White House, State Department and other government agencies. (S)

Central Research Section continues excellent work in preparing articles which have had dramatic impact on public, such as "Communist Target-Youth," "One Nations Response to Communism," and "Communist Illusion and Democratic Reality." In addition, continues research into criminal matters (Crimdel) and intelligence analysis (CINAL).

Defense plans manual revised and detailed field revisions being reviewed on current basis with target date for completion 12/15/60. Security informant coverage increased to 1507 (1439 as of 3/1/59). Live informants in Communist Party (CP) increased from 412 last inspection to 433 or 7.86% of estimated party membership (5531). Division survey of live informant coverage and emphasis on field offices needing improvement continues. Series of five field conferences on development and handling of Security Informants successful in promoting positive recommendations. Communist Index program in current status.

(U) Q O

Memo to Mr. Mohr
Re: Inspection - Domestic Intelligence Division

Review of work of Name Check Unit which services requests of other government agencies emphasizes broad assistance Bureau affords (1,040,209 requests in 1960 fiscal year). Four month comparable period July - October, 1959 - 1960, discloses work load constant and being handled with reduced personnel in prompt and efficient manner.

Effective work of foreign liaison noted with coverage extended to sources in 9 additional countries. Domestic liaison maintained at high level assuring Bureau of access to all levels of government.

Division programs reviewed and found to be justified on continuing basis, generally productive and sound. Close evaluation afforded those in existence substantial period of time. Frequency of reporting procedures on potential clandestine radio operators placed on annual basis instead of semiannual with no reduction in efficiency of coverage. Division directed to maintain record of "Double Agents" developed as result of program to place selected persons in touch with intelligence Agents as factor evaluating results. [Program to penetrate Soviet Intelligence Courier System in operation three years to be closely followed and termination considered if continues to be unproductive.] Emphasis placed on constant review of programs in order to assure unproductive are dropped in favor of concentrating efforts on productive. (S)

ADMINISTRATIVE OPERATIONS VERY GOOD

Supervisory responsibility clearly fixed with number one men, Section Chiefs and supervisors, with smooth flow of policy instructions and effective teamwork between officials at all levels. Supervision and policy guidance to field adequate and in conformity to Bureau regulations. Survey of correspondence determined citizen inquiry on general security matters handled centrally in Correspondence Unit to maintain consistent policy in reply to public. Inspector instructed all such letters clearly indicating substantive responsibility be assigned substantive desks. Security-type Fraud Against the Government cases handled on one desk in Subversive Control Section. Inspector instructed Division continually evaluate centralized handling for future consideration of realignment if warranted.

Errors in outgoing correspondence for 9 week period total 3 in 1759 pieces of mail for a percentage of .001%. Division directed to stress need for accuracy at all levels of operations. Minor bookkeeping errors noted and corrected in time and attendance records, none affecting fringe benefits. Full utilization of #1 Registers in Front Office instituted by allowing entries for more than one day. Resultant saving of space and feasibility of extending to other areas of Bureau to be discussed at Monthly Personnel Conference in 90 days. Odd-hour shifts fully justified and limited to necessary around-the-clock coverage of investigative responsibilities.

Memo to Mr. Mohr
Re: Inspection - Domestic Intelligence Division

~~SECRET~~

No discrepancies noted in division inventory, however, inconsistency of clerks and Agents handling this assignment in various sections observed and corrected. System of clerk being assigned this duty in each section under supervision of #1 Man installed as well as maintenance of records in uniform manner. Division alert to economy in operations as demonstrated by approved acquisition of Xerox machine which should save \$8,000 a year in necessary copying of records.

Constant evaluation of Defense Plans demonstrated, recommendation made and placed into effect that will insure the keeping of "chain of command" up to date by arranging for Movement Unit to advise immediately of personnel changes.

Inspector examined "JUNE" files (Division record of highly confidential techniques) and recommended purge of administrative and form-type serials after review by Division to determine serials falling in this category. Mr. Belmont agreed and present purge plan estimates in excess of 50% records space saving. Division also alerted to possibility of microfilming.

Tight administrative controls on mail covers justified and insure compliance with existing regulations and policy. Inspector recommended and Division agreed to extend re-authorization period to every six months in "sleeper type" cases rather than every 30-day basis to reduce paper work without affecting control. Recommendation adopted to destroy mail cover index cards for inactive files 2 or more years old.

Instruction folder for extra duty supervisor reviewed and recommendation for administrative change adopted to fix responsibility for up-to-date instructions.

Combined production of stenographers and typists 2.21 pages per hour, considered satisfactory in view of high percentage inexperienced personnel. Division instructed to continue intensive training program to maintain satisfactory level of production and reduce error factor. Retypes due to Agent error or change 5.29% (February, 1959 - 4.4%). Inspector instructed need for better preparation and correction of faulty dictation practices be continually stressed to reduce error.

PERSONNEL MATTERS VERY GOOD

Training of Agent personnel in all sections, primarily on-the-job type, is adequate and effective. Agent and clerical conferences monitored, covered timely topics and considered constructive. Through observation and interview of numerous employees every indication of solid teamwork operation and high employee interest and enthusiasm. No indication of factions, cliques or favoritism. Morale found to be high. Personnel considered adequate but not excessive consistent with evaluation

of work in each unit and section as well as Division-wide basis. Personnel needs are matter of continued evaluation within Division.

Voluntary overtime for period August, September, October, 1960, averaged 2 hours 34 minutes and determined to be adequate and productive with work load equitably shared. FBIRA membership 99% with division continuing effort for 100%. Need for improvement in number of contributions to Investigator stressed. All Agents within desirable weight limits. All Agents available during availability check. Three Agents on limited duty followed on 60-day basis by Administrative Division considered justified.

Qualified personnel are considered and advanced to positions of greater responsibility consistent with Bureau's need. Incentive award and commendation programs considered satisfactory, with 38 incentive awards and 415 commendations for Agents and clerks since recheck inspection. Inspector suggested commendation letters to clerical personnel generally be presented by section chief with oral congratulations - Division agreed. July - October, 1960, figures reveal Division with 5.9% of personnel at Seat of Government has contributed 23.1% of total suggestions. Promotional availability list maintained and discussed at clerical conference yearly.

Exit interviews of clerical employees spot checked and handled satisfactorily. Inspector instructed Assistant Director or person acting in his absence conduct Agent exit interviews. No abuses noted in spot checks of employee rest periods. Division funds audited and found to be kept in accordance with Bureau regulations. Spot checks of work boxes and desks located, no notes over 90 days. Sick leave properly taken and no indication privilege abused. One supervisor instructed to execute certification of past safe driving record (FD-289) bringing up to date all records relating to personnel qualified to drive Bureau car. Check made of available Agents credentials, badges, revolvers, and identification tags. One Agent instructed to obtain new credentials with up-to-date picture and one Agent to have credentials cleaned. Other property examined considered satisfactory.

CONTACTS VERY GOOD

During the period 10/59 - 10/60, the Division has had an aggressive speech program totaling 113 speaking engagements before quality groups, particularly at the Government and university level. Assistant Director Belmont has made seven speeches including a National Strategy Seminar in California. Chief Inspector W. L. Sullivan has gained material acceptance for his speeches in the security field and during the period spoke on 76 occasions. These have all been well received as evidenced by the commendatory response. Three supervisors in Central Research being assigned speeches.

on selective basis because of increased demand and to augment this important program.

Liaison functions of this division are widespread due to the very nature of security work. Mr. Belmont keenly aware of importance of liaison. The Division maintains contacts with all civilian and military Government agencies on a regular basis as well as membership on key strategy committees in the area of national defense. This extends to key international groups such as NATO and through our foreign liaison with key security and police forces of all friendly nations. A review of this program discloses that at all levels, executive, legislative and judicial, liaison representation is effective and timely.

Relations with the Department of Justice were found to be controlled by the Front Office in accordance with Bureau regulations. No areas noted of individual supervising maintaining unauthorized liaison with Department representatives.

In introducing me to the group, Ambassador HILL went to great length in praising the work of the Legal Attache's Office and its essential operation in the Embassy. He also told the visiting group that it was his personal opinion that the Bureau should extend operations to more Embassies throughout the world.

Also in attendance at this briefing was Major General JOHN M. Dear Mr. Belmont:

I want to commend, through you, the
Special Agents of the Domestic Intelligence Division
who so capably conducted the tours of the FBI for
members and guests of the American Bar Associa-
tion during its annual meeting.

These agents did an outstanding job in
conducting these tours. The many commendatory
remarks received clearly indicate that their enthu-
siastic and skillful efforts resulted in our guests
having a more personal glimpse into our operations
and reflected most favorably upon the Bureau.
Please convey my sincere thanks to all who
assisted.

On 9/12 a [redacted] of ONI called on me to advise that Captain [redacted] had given my name as a reference in connection with a routine check being made by ONI regarding security clearance for classified information.

I told [redacted] that Captain [redacted] had been a neighbor of ours from about 1955 to 1958, and based on a social acquaintance with him and his family I considered him to have an excellent reputation and character, and to be loyal to the US.

I told [redacted] I did not know Captain [redacted] from the standpoint of his official work; that my acquaintance was restricted to social friendship, and from this standpoint I would recommend Captain [redacted]. I made it clear that my comments were purely personal.

In accordance with SAC Letter 60-35, all members of the Executives Conference except those on annual leave (Messrs. Callahan and Ingram) have been weighed in the Health Service and found to be within the desirable weight limits for their respective heights and frames. It is noted that on July 5, 1960, three of the members exceeded the desirable weight limit, namely Messrs. Mohr, Parsons, and Tamm, each of whom is now within the limit. Messrs. Callahan and Ingram will be weighed upon their return from annual leave. However, it is noted that they were previously well within the desirable limits; thus, as of the last weighings, all members of the Executives Conference are now within the desirable limits. Tabulation attached.

RE: SA A. H. BELMONT
(Type or print plainly)

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name Mrs. Loretta D. Belmont	Relationship wife	Date 9/6/60
Address 2711 North Yucatan St., Arlington, Virginia		

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in the line of duty.

Name Mrs. Loretta D. Belmont	Relationship wife	Date 9/6/60
Address 2711 North Yucatan Street, Arlington, Virginia

Dear General:

Assistant Director Belmont has shown me your letter to him of May 13, 1960, with enclosures, relative to his participation in the Asilomar National Strategy Seminar.

It was indeed thoughtful of you to write, and I am glad to hear that the Seminar was so well received. You may be certain that it was a pleasure for Mr. Belmont to be with you and take part in this affair, and we both appreciate your kind remarks along with those of Admiral Kivette and General Smith. If we can be of assistance to you again, please do not hesitate to call on us.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Belmont:

ALLAN H. BELMONT

Please accept my deep appreciation for your part in making the Asilomar National Strategy Seminar such a significant and successful event. Vice Admiral Frederick M. Kivette and Major General Sory Smith also have asked me to express their appreciation for your participation.

Reports indicate the seminar was enthusiastically received and extremely effective. There have been many compliments on the presentations and the individuals who made them. In large part, the success of the seminar can be measured by the number of conferees who have expressed a sincere interest in presenting their newly gained knowledge before civic leaders and groups within their home communities.

We were singularly fortunate in being able to assemble at Asilomar so many leading authorities in various military and civilian fields related to national strategic planning. The accomplishments we achieved and the incentives for further action which were produced are directly attributable to authoritative and professional presentations such as yours.

I feel it would be desirable to conduct such seminars as the Asilomar gathering periodically. If this should materialize, I hope we shall have the benefit of your participation again.

Warm personal regards.

Dear Mr. Belmont:

I am writing to commend you and, through you, the personnel of the Domestic Intelligence Division for the outstanding manner in which a special project was handled.

The preparation of this material was extremely difficult because of the extensive research required and of the short deadline which had to be met. I was very impressed with the exceptional fashion in which the document was produced and its excellence is certainly a credit to you and your associates. I want to take this opportunity to let you know of my appreciation and to ask you to convey my sincere thanks to all for their superb services.

Sincerely yours,
J. Edgar Hoover

DATE: May 3, 1961

FROM : SAC AUERBACH

SUBJECT: ALAN H. BELMONT
ASSISTANT DIRECTOR

NATIONAL STRATEGY SEMINAR
ASILOMAR, CALIFORNIA
APRIL 24-30, 1960

Undoubtedly Mr. BELMONT is reporting to you the details of the above-captioned conference.

I feel sure, however, that with Mr. BELMONT's modesty he will not give you the entire picture. By this I mean I have received several comments which I think should be brought to your attention concerning the functioning of Mr. BELMONT.

I have been advised that extremely complimentary congratulations and comments were given to Mr. BELMONT by the Russian Orthodox Bishop of San Francisco and several Generals who stopped Mr. BELMONT during the course of his stay there to tell him how they felt about his talk.

Further, I am advised by Colonel WILLIAM R. RAINFORD, G-2, 6th Army, that Lieutenant General Robert Cannon, Commanding General, 6th Army, and Major General J. J. Binns, the Seminar Chairman, were most laudatory in their comments, stating that Mr. BELMONT's talk was something "they could get their teeth into" and made more sense to them than almost all the other speakers combined.

To give you an example of the quick spread of Mr. BELMONT's talk, I have been told that, during the Law Day celebration at the Presidio Theater Forum yesterday, several comments of Mr. BELMONT were quoted to the throng which attended the ceremony by the Legal Officer of the 6th Army.

In addition to the comments by CANNON and BINNS themselves, RAINFORD advises me that both of these men told RAINFORD that they had received numerous comments that Mr. BELMONT's talk was the first one to inject any practicality, morality or patriotism into the conference. They pointed out that as soon as Mr. BELMONT finished speaking a large crowd of the more than 500 delegates gathered around him to compliment him and pursue the subject further. They also pointed out that he was the only individual who received spontaneous applause on several points during the course of his talk.

Dear Mr. Belmont:

My attention has been directed to a very serious error in a summary memorandum which was being submitted to the White House under date of May 12, 1960. This document was prepared in your division and was reviewed and approved by three of your subordinate officials. The dictator and all of the reviewing officials failed to note the mistake. It is obvious that the correspondence in question received only cursory reviews and such a procedure is inexcusable.

I shall expect you to take appropriate measures to bring about closer and more detailed review of future documents of this nature, both by the dictator and by all reviewing officials, so that such embarrassing mistakes may be eliminated. It is your responsibility to see that this is done.

Very truly yours,

RE: SA ALAN H. BELMONT
(type or print plainly)

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name Mrs. Loretta D. Belmont Relationship Wife Date 2/8/60

Address 2711 North Yucatan Street, Arlington, Virginia

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in the line of duty.

Name Mrs. Loretta D. Belmont Relationship Wife Date 2/8/60

Dear Belmont:

I am taking this moment to express my sincere thanks for your extended consideration of a matter of vital importance to the Bureau in the security field.

The success of this delicate operation has been of tremendous value in enhancing the Bureau's reputation in the intelligence field and can certainly be attributed to your highly capable direction and guidance. You discharged your heavy responsibilities in an intelligent and ingenious manner and your performance was indeed a credit to the FBI. I want to take this opportunity to commend you and let you know of my appreciation.

Solo is code name of operation involving CG 5824-S as official liaison representative between Communist Party (CP), USA, and top level leaders of CPs of Soviet Union, Red China and other iron curtain countries.

By letter 12-3-59 SAC Chicago recommended incentive awards for SAs John E. Keating and Carl N. Freyman of \$1000 each and \$150 for stenographer [redacted] for outstanding performance in connection with Solo missions two and three. Also recommended bonus of \$1000 for informant and letter from Director in appreciation of his services. Domestic Intelligence Division (DID) concurred in recommendations of SAC but suggested \$500 each for SAs Keating and Freyman. DID also recommended incentive award of \$250 for SA Andrew A. Decker, Jr., and \$150 for secretary [redacted] for handling at SOG. DID recommended commendation for SAC Lopez for over-all supervision in Chicago and for Inspector J. A. Sizoo and Section Chief F. J. Baumgardner for over-all supervision at SOG.

In Solo #2 informant attended 21st Congress, CP of Soviet Union (CPSU) in January and February, 1959, as CPUSA official representative and conferred with high ranking officials of the Soviet Union and other CPs. In Solo #3 informant returned to US 11-11-59 after journey to Red China and Russia where he conferred with top leaders of CPs in these countries as well as Latin America, Czechoslovakia, Spain and Japan. Outstanding information developed in these missions is of inestimable value to Bureau and US. Information developed not available to any other source and represents the most outstanding achievement in Bureau's Internal Security field. Information developed promptly disseminated to top Government officials including the President and the Secretary of State for their use in dealing with other nations.

SA Keating handled informant in preparing for, during and after these missions. SA Freyman originally developed informant and had direct supervision of SA Keating and informant during missions. [redacted] handled all dictation and transcription of material relating to missions. SA Decker had supervision at SOG and was instrumental in handling the arrangements which resulted in obtaining of birth certificate and passport for informant's wife at last minute assuring that mission #3 could be carried through. [redacted] handled all stenographic and clerical operations at SOG incidental to missions which included prompt dissemination of information developed. All involved were confronted with numerous problems in preparing informant for mission and handling upon his return. The outstanding results were due directly to exceptional performance of employees involved. Incentive awards and commendations certainly appear justified.

BUREAU RECORDS OF PERSONNEL RECOMMENDED FOR INCENTIVE AWARDS:

SA Freyman, Chicago, EOD 2-3-42, grade GS 13, \$11,000. During past three years, no [redacted] commended on five occasions one of which, 4-3-59, for supervision of Solo [redacted] received each award 9-12-58 of \$500 for development of informants involved in Solo [redacted]

SECRET

~~SECRET~~

and success realized in [Celo #1]. Received cash award 10-5-57 of \$300 for development of highly confidential source. 1957 annual performance rating Excellent.

SA Keating, Chicago, EOD as SA 9-23-43, grade GS 13, \$10,370. During past three years no censures, two commendations, the last, 4-3-53, for success in [Solo Operation #1]. Received cash award 9-10-57 of \$200 for handling of informant involved in [Solo] Operations and on 9-12-53 of \$500 for handling of informants involved in [Solo] Operations and success realized in [Solo #1]. 1959 annual performance rating Excellent.

Chicago, EOD 6-22-63, grade GS-5, \$4340. No censures, commended on three occasions, the last, 4-3-63, for work on Solo #2. On 2-18-63 received \$125 cash award primarily for transcribing material relating to informants in Solo Operations and on 6-12-63 of \$150 for work in transcribing material relating to Solo #1. 1963 annual performance rating Excellent.

NA Decker, DID, EOD 10-25-43, grade GS 14, \$11,835. Since transfer to EOG 8-11-57 he has been commended on one occasion and on 9-16-53 he was censured and placed on probation during inspection of DID as he was observed not devoting full time and attention to official assignments although he had indicated on official attendance registers he was so engaged. Removed from probation 12-17-53. Rated Satisfactory on 1959 annual performance rating in view of administrative action taken against him.

[REDACTED] DID, EOD 6-25-53, grade GS 5, \$4340. Commended on four occasions, the last two, 0-12-53 and 4-3-59, for transcriptions of material relating to Solo #1 and Solo #3. Censured 10-17-53 for nonsubstantive errors in correspondence. 1953 annual performance rating Excellent.

RECOMMENDATIONS:

(1) That SAs Carl N. Freyman and John E. Keating, Chicago Office, be approved for incentive awards of \$500.00 each for the major contributions made by them toward the outstanding results attained in Solo Operations #2 and #3. (S)

(2) That [redacted], Confidential Clerk (stenography), Chicago Office, be approved for an incentive award of \$150.00 for the substantial contributions made by her toward the success realized in Solo Operations #2 and #3. (S) ✓

Memorandum Mr. Belmont to the Director 11/23/59
(attached) referred to Senator Clinton Anderson's request 8/8/59 for a listing of all letters, reports and communications we have sent Atomic Energy Commission (AEC); pointed out that on 11/23/59 Attorney Devine of the Department telephonically advised that the Department had sent the list we had made to AEC; that AEC could not find some of the documents we had listed; and that AEC had come up with additional documents we had not listed. Mr. Belmont requested Mr. Devine to send the results of the AEC search to us so we could check. This was received during the evening of 11/23/59. The Director indicated he would like to know the results of our check.

The AEC list furnished us by the Department has been checked and it has been found that there is a total of 65 differences between the check made by AEC and the list submitted by us to the Department. In 46 of these instances it would appear that AEC is in error inasmuch as it disclaimed receipt of letters or reports whereas our records do reflect the documents were sent to AEC; AEC failed to account for enclosures we sent; or documents maintained in Bureau files other than the Oppenheimer file are in AEC's Oppenheimer file. In 19 instances a recheck of our files indicates that the items raised by AEC were correct in that in 14 instances we have now located these items in our files and in 5 instances there were slight discrepancies in dates, etc., in our listing.

For the Director's information, at the time we initially received this request from Senator Anderson, we placed the majority of the supervisors in the Nationalities Intelligence Section on a rush overnight check of the 58 volumes of the Oppenheimer file to list the requested information. We did not, however, rely solely on this rush job as the following day we had 6 additional supervisors make a complete recheck. We maintained a record of exactly which files were checked by which supervisors for over 3 months. At the end of that time, no questions having been raised, we dispensed with it. We are, therefore, unable to pin responsibility for the differences noted to the specific supervisors who made the checks.

Re: Dr. J. Robert Oppenheimer
100-17828

RECOMMENDATIONS:

1. That despite the volume of the files checked and the number of items involved (our list contained 423 items), we have the responsibility for determining that matters of this type be completely accurate. Therefore, it is recommended that the following be censured:

(a) The coordinating supervisor, SA John F. Wacks

(b) The acting Section Chief, SA W. R. Wannall

(c) Asst Director A. H. Belmont

I agree. This was badly handled.
The importance of being accurate was
yes - obvious

2. That we advise Attorney Devine of the Department, who sent the list to us informally, that the only manner in which these differences can be resolved is by having our representatives contact AEC to clarify its notations and have Devine request that we make such a contact with AEC for this purpose.

Done 11/25. Devine
requested we contact
AEC to get this worked
out

3. That we contact AEC to resolve the differences, thereafter advising the Department that the differences have been resolved.

Dear Mr. Belmont:

I have reviewed the explanations submitted by the Domestic Intelligence Division with respect to the number of discrepancies which have come to light in a list of documents prepared by your division some time ago in the Internal Security case involving Dr. J. Robert Oppenheimer and it is amazing that this obviously very important matter should have been handled in such an inept manner. There can be no satisfactory explanations offered for these errors since they should not have been permitted to occur.

In view of the above, I shall expect you to make certain that hereafter any similar matters are handled with more thoroughness and accuracy so that there will be no further shortcomings of this nature.

Very truly yours,

John Edgar Hoover

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name Mrs. Loretta D. Belmont Relationship Wife Date 9/24/59
Address 2711 North Yucatan Street, Arlington, Virginia

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in the line of duty.

Dear Mr. Belmont:

I am pleased to commend, through you, my associates in the Domestic Intelligence Division who made such material contributions to the success of an operation in the security field of extreme importance to our country.

I was very impressed with the aggressive, alert and competent manner in which they discharged their responsibilities of directing and guiding the activities of the field in order that this undertaking could be carried out with the highest degree of success. They displayed outstanding judgment and intelligence in meeting and overcoming the many difficulties which are inherent in an operation of this nature and their services were in keeping with the finest traditions of the Bureau. I want you to convey my sincere appreciation to them.

I thought you might be interested in the following comments volunteered to me last night by James Angleton, who was one of the CIA representatives at the White House conference held on June 2, 1959.

Angleton stated that the conference was one of the "roughest" he has ever attended and that this atmosphere was entirely due to the tactics of General Swing. He described Swing as a "vulgar liar" who strayed away from the facts, frequently used profanity, and expected to ride over any opposition. According to Angleton, Mr. Belmont gave a masterful demonstration of upholding the Bureau's concern for internal security factors and he did this despite most discourteous sniping and interruption from Swing. Angleton advised that Mr. Belmont controlled his temper at all times but still forcefully put his points across. As Angleton put it, Mr. Belmont was never caught in a trap and came back with answers which made Swing look ridiculous.

Angleton maintains that the entire conference was "rigged" by Swing and Gerald Morgan of the White House. He advised Morgan was almost disdainful of views of others, particularly CIA. He talked to Morgan after the conference and told him that the entire affair was disgraceful and called Morgan for his obvious discourtesy in not permitting CIA to present its views. Morgan was allegedly startled by the statements and admitted he might have misunderstood CIA's position.

Angleton stated that Swing may think he won a victory by obtaining approval to institute preinspection in the Bahamas, but actually he has ruined himself in the eyes of the agencies represented. Angleton maintains that Swing clearly showed everybody that he is a "fraud." He further added that Swing and Morgan obviously planned to move ahead and institute preinspection procedures in Cuba and Mexico, but due primarily to efforts of Mr. Belmont they were stopped.

I know that the manner in which I have transmitted this information is not through normal channels. However, I did not wish that my motive for reporting the information be misinterpreted, bearing in mind that I was closely involved with Mr. Belmont in the

In accordance with instructions contained in a memorandum to all Bureau officials and Supervisors dated April 4, 1957, records have been maintained of the errors in correspondence and of the reviewing officials who approve correspondence with nonsubstantive errors contained therein. During the period October 9, 1958, through May 22, 1959, ten such errors were charged to me.

A review of the errors reflected that most were typographical and grammatical errors, and none of the errors changed the meaning of the communications in question in any way.

Every effort will be made to use even more care in the future so that such errors will be kept at an absolute minimum.

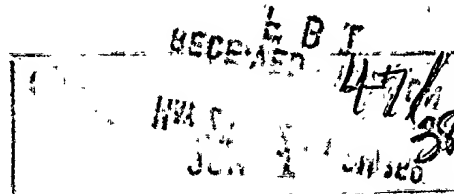

RECOMMENDATION:

It is recommended that this memorandum be forwarded to the Administrative Division and that a letter of censure be prepared addressed to me.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. DeLoach

DATE: March 27, 1959

FROM : M. A. Jones

SUBJECT: ARTICLE FOR
NATIONAL GEOGRAPHIC MAGAZINE

In accordance with a recommendation approved by the Director, the author of the forthcoming article concerning the FBI in the National Geographic Magazine, [] has been conferring with Bureau officials in order to give him a detailed picture of our operations.

SA Murphy of this section took [] to see Assistant Directors Tamm and Belmont this morning and both of these gentlemen spent considerable time outlining the responsibilities of their divisions to Mr. Hay and in answering questions which he propounded concerning their particular functions.

The purpose of this memorandum is to point out that both Messrs. Tamm and Belmont did an exceptional job, and from comments made to SA Murphy following each of the discussions, it was obvious that [] was extremely impressed. b6

He commented at length to SA Murphy about the impression made upon him by Mr. Belmont in the field dealing with security matters in general and the Bureau's responsibilities in particular. He stated that he had never heard such a clear-cut and dynamic exposition in his long career as a newspaperman and magazine writer.

Cooperation such as that extended by Messrs. Tamm and Belmont is of exactly the proper nature and tone and does much to lend authority and impact to stories such as that which [] is presently assigned. 469 57

RECHECK INSPECTION
DOMESTIC INTELLIGENCE DIVISION
INSPECTOR JOHN F. MALONE
2/16/59 to 3/6/59

SUMMARY

OFFICIALS: A. H. Belmont, Assistant Director since 9/30/51;
Inspector J. A. Sizoo, No. 1 Man and Branch Chief (Internal
Security - Liaison Branch) since 9/15/53; Inspector D. E. Moore, Branch
Chief (Espionage - Central Research Branch) since 10/14/56. All on
probation since 9/16/58 for "newspaper reading" and similar abuses discovered
in early morning check during previous inspection.

LAST INSPECTION: 7/23/58 to 10/31/58.

EVALUATIONS:

(1) PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Previous deficiencies corrected. Recheck reflects few
new minor housekeeping deficiencies, all corrected. Over-all space appearance
very good; no space needs and no security violations detected. Space changes
previously recommended, now completed and more contiguous space has
benefited division.

(2) INVESTIGATIVE OPERATIONS VERY GOOD

Division case load 20,459 as of 1/31/59, increase of
24.6% since last inspection, due mainly to program of reopening and re-
evaluation of Communist Index cases instituted 10/2/58. No substantive errors
and only one form error (0.8%) found in 126 files reviewed. Previous
deficiencies concerning technical surveillances all corrected, 22% of existing
technical surveillances reviewed and found productive and justified.

Intensification Program streamlined and essential work being handled with
minimum manpower. All programs reviewed, justified and producing desired

results. Slight decrease in number of informants offset by wider Communist Party coverage. [Since last inspection top secret cryptographic "keys" obtained, of inestimable value, which resulted in savings of \$110,000 for the National Security Agency on decoding labor.] [Two Communist Party informants continue outstanding performance under division's guidance, one serving as courier between Communist Party, USA, and Communist Party, Soviet Union, with other producing evidence of financing linking Communist Party, USA, to Communist Party, Soviet Union.] (u)

(3) ADMINISTRATIVE OPERATIONS VERY GOOD

Streamlining procedures instituted last inspection working satisfactorily and beneficial to division. Consolidated Name Check and Special Memorandum Section now handling more work with less personnel. Abolishment of W. V. Cleveland's position in Front Office resulted in Section Chiefs assuming more responsibility, reduced mail flow to Front Office, allowing greater freedom for other administrative duties and planning. Administrative spot checks regularly made by Mr. Belmont and staff, to guarantee overtime devoted to official business. Mr. Belmont accompanied by Inspector on one such check and no deficiencies noted. All delinquencies discovered last inspection now corrected and new procedures instituted found beneficial to division. Tighter control being maintained over work of Legal Attaches; Legal Attache Manual to be completed within 6 months, as well as Bureau War Plans Manual. Stenographic and typing production increased from 2.1 pages per hour during last inspection to 2.5 pages per hour, now equal to Seat of Government average. Survey reflects 9.3% of pages retyped due to stenographic errors or changes by dictator or reviewing officials. Suggestions made and instructions issued for improvement. Time and attendance record procedures satisfactory; decided improvement on accuracy and uniformity since last inspection.

(4) PERSONNEL MATTERS VERY GOOD

Personnel considered adequate but not excessive. During previous inspection Agent personnel reduced 14%, with approximately 10% reduction in clerical personnel. Since previous inspection work load increased 24.6% and only personnel increase has been two clerical employees with one additional clerical employee request pending action by Administrative Division.

Voluntary overtime average for division increased from 2 hours, 19 minutes (6 months' average - January - June, 1958) to 2 hours, 41 minutes (3 months' average - November - January, 1959). Overtime analysis indicates

all section averages have increased and overtime being equitably shared. Morale excellent. Availability check 2/16/59 determined all supervisors available.

(5) CONTACTS EXCELLENT

During previous inspection the division was rated excellent on contacts. During recheck inspection it was noted that 51 new contacts with outside sources have been developed and program is continuing on an excellent basis.

CONCLUSIONS BASED ON RECHECK:

All delinquencies discovered during last inspection now corrected. Procedures instituted operating smoothly and beneficially. Efficiency, manpower savings and other economies demonstrated. Corrective and strengthening action approved by Director proven beneficial. Mr. Belmont and staff now functioning as smooth team and have eliminated weaknesses.

EVALUATION OF KEY PERSONNEL:

1. Assistant Director Belmont

(EOD 11/30/36; GS-18, \$17,500; Domestic Intelligence Division since 2/27/50; as Assistant Director since 9/30/51; aged 52. Mr. Belmont was severely censured and placed on "interim" probation 9/16/58 for abuses discovered in surprise morning check of division. He was continued on probation until he could conclusively prove his desire and ability to forcefully manage administrative responsibilities.) Inspection findings indicate that Mr. Belmont has definitely proven his desire and ability to properly administer the Domestic Intelligence Division. Mr. Belmont has an excellent attitude. He has a thorough knowledge of operations of his division. He has personally and conscientiously followed the recommendations of the previous inspection to see that all suggestions were meticulously followed. He has tightened up on the soft spots found in the division. He no longer relies completely on his subordinates to insure efficient administration of the office but maintains proper controls and spot checks. Inspector feels Mr. Belmont should be removed from probation.

2. Inspector - No. 1 Man, Joseph A. Sizoo

(EOD 7/10/35 (Clerk); 11/1/38 (SA), GS-16, \$14,910, in division since 9/15/53 (except temporary assignment Mr. Tolson's Office 6/1/54 - 8/25/55); aged 48. Censured and placed on "interim" probation 9/16/58 for abuses

disclosed in morning divisional check in his branch. Censured and continued on probation as of 11/12/58 until he demonstrated completely acceptable administrative leadership over his branch.) Mr. Sizoo is capable and enthusiastic about his work. Although opposed to some changes recommended by the Inspector for what he considered at the time sound reasons, he wholeheartedly administered the changes recommended and admitted that the new system is working satisfactorily. Mr. Sizoo checks his branch periodically. Other administrative weaknesses detected during the inspection have been eliminated and the recheck inspection indicates that Mr. Sizoo's branch is now functioning smoothly and efficiently.

3. Inspector - Branch Chief Donald E. Moore

(EOD 3/10/41; GS-16, \$14,910; in present position since 10/14/56; aged 40. Censured and placed on "interim" probation since 9/16/58 because of abuses in his branch discovered in early morning divisional check. Continued on probation as of 11/12/58 until he demonstrated completely acceptable administrative leadership over his branch.) The delinquencies for which Inspector Moore had been placed on probation were carefully checked during the inspection and very commendable improvement had been noted. During the interview with Mr. Moore he displayed an excellent attitude and a thorough knowledge and background of the work he is supervising. He makes proper spot checks of his branch before, during and after regular hours and has initiated administrative devices and controls to enable him to properly maintain the tight supervision necessary over the operations of his branch. Inspector Moore enthusiastically applied the suggestions made by the Inspector during the previous inspection and stated that the division has benefited materially from some of these suggestions.

4. Section Chiefs Fred J. Baumgardner (Internal Security); W. A. Branigan (Espionage); J. F. Bland (Subversive Control); S. B. Donahoe (Nationalities Intelligence); R. R. Roach (Liaison).

(All were placed on probation 9/16/58 because of abuses discovered during early morning check. As of 11/12/58 they were continued on probation with stern warnings to Section Chiefs Branigan and Roach that any substantial indication of future administrative weakness would result in immediate removal from the position of Section Chief.) The inspection findings in the sections supervised by the above-indicated Section Chiefs were found to be in satisfactory condition. Morale of the employees was high. The Section Chiefs

possessed an excellent attitude and enthusiastically adopted the suggestions left with them as a result of the previous inspection. The administrative weaknesses have been eliminated and the value of the work handled on the respective desks has been considerably enhanced. The inspection findings further indicate that Section Chiefs Branigan and Roach are capable of handling the position of Section Chief in their respective sections.

RECOMMENDATIONS:

1. That Assistant Director Belmont be removed from probation. If you approve, attached letter will suffice.

2. That Inspectors Sizoo and Moore be removed from probation. If approved, to be handled by the Administrative Division.

3. That Messrs. Baumgardner, Bland, Branigan, Donahoe and Roach be removed from probation. If approved, to be handled by the Administrative Division.

4. Recommendations as to other personnel handled separately.

PERMANENT BRIEFS OF BELMONT, SIZOO, MOORE, BAUMGARDNER, BLAND, BRANIGAN, DONAHOE AND ROACH ATTACHED.
